Manager's Review and Report

I. FUND INFORMATION

Fund Name
Hong Leong Dana Maa'rof ("HLDM2" or "the Fund")

Fund Category
Balanced (Islamic)

Fund Type
Growth and Income

Investment Objective
The Fund is primarily* an Islamic balanced fund which seeks to achieve not only regular income** but also meaningful*** medium to long-term capital growth. The Fund provides the public an affordable**** access into a diversified investment portfolio containing a 'balanced' mixture of equities and fixed income securities that comply with the Shariah requirements.

Duration of the Fund and its termination date, where applicable
Not Applicable

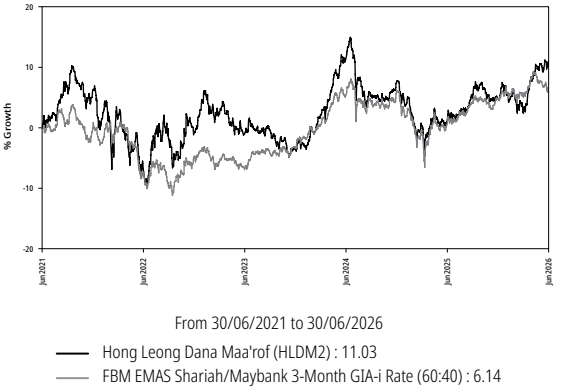
Benchmark
Maybank 3-Month GIA-i rate (40% weightage) and FTSE Bursa Malaysia (FBM) EMAS Shariah Index (60% weightage)

Distribution Policy
The Fund intends to provide regular income^ and consistent long-term capital growth. As such, regular income returns will be declared on a semi annual basis, subject to availability of income.

Notes:
* The Fund will generally maintain its asset allocation as an Islamic balanced fund at all times.
** Income may be distributed in the form of cash and/or Units.
*** Please take note that the Fund aims to provide sustainable risk-adjusted returns in the form of capital growth and income in accordance with the performance benchmark and distribution policy of the Fund, although this is not guaranteed.
**** Unit holders may purchase Units in the Fund at a minimum initial investment from as low as RM100, subject to sales charge.
^ Income distributions (if any) are not guaranteed. Distributions of income will only be made from realized gains or realized income derived from the investments of the Fund(s).

II. FUND PERFORMANCE

Chart 1: Performance of the Fund versus the benchmark covering the last five financial years



Source: Lipper, in Malaysian Ringgit terms, ex-distribution, NAV Per Unit-to-NAV Per Unit basis with gross income (if any) from HLDM2 reinvested.

Past performance is not necessarily indicative of future performance and unit prices and investment returns may go down, as well as up.

Performance Review

This Annual Report covers the twelve-month financial year from 1 July 2025 to 30 June 2026.

The Fund posted a return of 9.54% (based on NAV Per Unit-to-NAV Per Unit basis with gross income (if any) from the Fund reinvested) in the past twelve months while its benchmark the FBM EMAS Shariah/Maybank 3-Month GIA-i Rate (60:40) registered a return of 5.31%. During the financial year under review, the Fund had distributed gross income distributions of 0.5000 sen per unit (net income distributions of 0.5000 sen per unit) to its Unit holders on 15 July 2025, 15 October 2025, 15 January 2026 and 15 April 2026. Prior to the income distributions, the cum-distributions Net Asset Value (NAV) per unit of the Fund were RM0.4950, RM0.5131, RM0.5087 and RM0.4944 while the ex-distributions NAV per unit were RM0.4900, RM0.5081, RM0.5037 and RM0.4894 respectively. Unit holders should note that income distributions have the effect of reducing the NAV per unit of the Fund after distributions.

For the five financial years ended 30 June 2026, the Fund has registered a return of 11.03% compared to the benchmark's return of 6.14% while distributing a total gross income of 12.2500 sen per unit (net income of 12.2500 sen per unit).

Table 1: Performance of the Fund for the following periods as at 30 June 2026 (Source: Lipper)

	3 Months	6 Months	1 Year	3 Years	5 Years	10 Years	Since Launch
HLDM2 Return (%)	8.44	6.08	9.54	12.16	11.03	93.26	394.54
Benchmark (%)	1.05	1.37	5.31	14.04	6.14	-	8.08*

* The figure shown is from the period 29 May 2020. The 10 years benchmark return is not available as there is no data prior to 29 May 2020.

Table 2: Return of the Fund based on NAV Per Unit-to-NAV Per Unit basis for the period 30 June 2025 to 30 June 2026 (Source: Lipper)

	30-Jun-26	30-Jun-25	Return (%)
NAV Per Unit	RM0.5174	RM0.4916	9.54#
Benchmark	108.08	102.63	5.31
vs Benchmark (%)	-	-	4.23

\# Return is calculated after adjusting for income distributions during the financial year under review.

Table 3: Financial Highlights

The Net Asset Value attributable to Unit holders is represented by:

	30-Jun-26 (RM)	30-Jun-25 (RM)	Change (%)
Unit Holders' Capital	**89,632,539**	121,146,782	(26.01)
Retained Earnings	**12,252,792**	4,443,637	175.74
Net Asset Value	**101,885,331**	125,590,419	(18.87)
Units in Circulation	**196,932,990**	255,468,355	(22.91)

III. INVESTMENT PORTFOLIO

Chart 2: Asset Allocation – July 2025 to June 2026

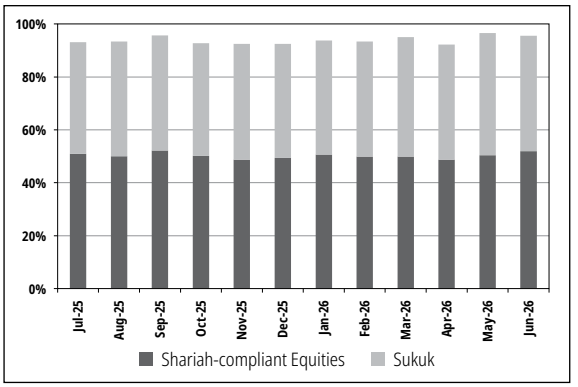

Chart 3: Sector Allocation as at 30 June 2026

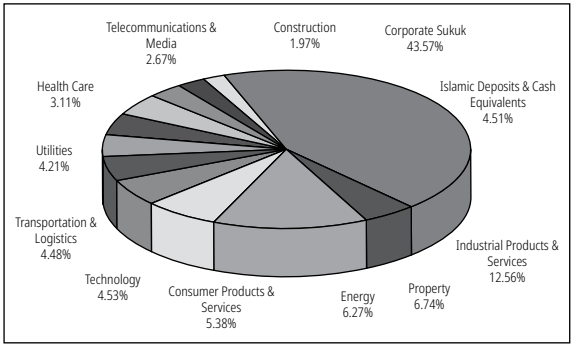

Strategies employed by the Fund during the period under review

On the Shariah-compliant equities front, our portfolio strategy remains balanced and highly selective. We have continued to lock in gains from outperforming names, redeploying the proceeds into quality, dividend-yielding Shariah-compliant equities and fundamentally sound domestic plays. We maintain a nimble approach and a healthy liquidity buffer to navigate potential volatility stemming from upcoming corporate earnings and shifting macroeconomic data prints.

On the sukuk front, the Fund remains defensive and highly selective on credit. We maintain a conservative stance, prioritising high quality issuances for capital preservation and stable income generation.

An explanation on the differences in portfolio composition

On the Shariah-compliant equities front, the Fund took profit from telecommunications & media and energy sectors, as well as added some exposure to industrial products & services and property names as share prices fell to level where the valuation became more palatable.

On the sukuk front, the Fund increased allocation to corporate sukuk and reduced its exposure to Government Investment Issues (GII). The Fund continued to invest in high investment grade corporate sukuk with strong credit fundamentals.

Operational review of the Fund

For the financial year under review, there were no significant changes in the state of affairs of the Fund or circumstances that would materially affect the interest of Unit holders up to the date of this Manager's report.

IV. MARKET REVIEW

Shariah-compliant Equities

During the financial year under review, both FBM KLCI and FBM EMAS Index grew 8.6% and 8.2% respectively. The Fund's benchmark, FBM EMAS Shariah Index underperformed the conventional peers with a lower gain of 7.4%, due to the absence of strong rally saw in the conventional financial services stocks. Notably, small caps continued to lag behind large-cap, with FBM Small Cap Shariah Index only improving by 1.3% during same period. This reflected sustained risk aversion among investors toward smaller companies.

The MSCI AC Asia Pacific ex Japan Index increased 38.2%. The best performing markets were Taiwan and Korea while the worst performing markets were Indonesia and Hong Kong.

The third quarter of 2025 saw markets continuing its rally, building upon the various tariff trade deals announced in August. Stocks which are seen as beneficiaries to the Artificial Intelligence (AI) Capital Expenditure (CapEx) cycle and China's 'anti-involution' themes rallied strongly. Narrative in the market shifted from tariff headwinds to United States (US) Federal Reserve (Fed) rate cuts which is largely interpreted to be supportive of growth and higher valuations.

The last quarter of 2025 saw high volatility in AI stocks globally. While on one hand company guidance and future CapEx spend was strong, high valuations were also a concern. Overall, despite the volatile quarter, AI stocks still closed the quarter higher. There was increasing concern on the US Fed Independence, resulting in precious metals such as gold and silver to outperform.

Regional markets started 2026 strongly with shortage in memory chips resulting in a strong tech rally in Korea and Taiwan. In contrast, Indonesia saw its market decline sharply after MSCI flagged risks on ownership transparency. Japan and Thailand both saw elections which resulted in the incumbent taking victory. Both markets rallied on optimism over policy continuity. However, the market was negatively affected by conflict in the Middle East (ME), specifically Iran. That resulted in a large energy supply shock, driving energy prices up. While a ceasefire has been announced by the conflicting countries, the energy supply shortage remains a concern to global equity markets.

Despite the continued conflict in the ME, global equities were desensitised towards it and soared on positive news flow coming from AI which resulted in a massive demand increase towards semiconductors, in particular memory chips. Tech was the best performer albeit with huge volatility as well. Economies heavily exposed to the tech sector such as Taiwan and Korea performed the best. Moves towards a peace deal in Iran saw oil prices declining during the financial year under review, while the US Dollar (USD) strengthened following a hawkish stance taken by the new US Fed Chair.

Back in Malaysia, the tariff rate with the US was revised from 25% to 19%, in line with other regional peers. This sparked a broad-based rally, recovering much of the declines seen in the early part of 2025. Bank Negara Malaysia (BNM) also cut the Overnight Policy Rate (OPR) by 25 basis points (bps) to 2.75% during the third quarter of 2025, in line with other central banks globally. While the market exhibited more risk on behaviour during the financial year under review, concern still lingers regarding the impending semiconductor tariffs expected to be announced by the US.

The Malaysian Ringgit (MYR) was the centre of attention in the final quarter of 2025. The MYR closed the year 10.3% higher against the USD. The domestic market so rotation with export related stocks declining while banks and consumer stocks did well. An impending large health care Initial Public Offering (IPO) also resulted in some optimism in the health care sector.

The MYR continued its strength coming into 2026, reaching a high of 3.88 against the USD in February. This resulted in strength in large liquid index stocks, particularly the financial and consumer sector. Export related stocks suffered due to concerns over profit margins. Malaysia is not spared from the energy supply shock caused by the conflict in Iran. Escalating raw material prices as a result of higher energy prices have caused margin pressure and inflation concerns.

In the second quarter of 2026, the Malaysian tech sector was the best performer, benefitting from the AI driven CapEx spend. El Nino onset also resulted in plantation stocks performing well, with the market expecting crude palm oil prices to rise. The consumer sector suffered as the higher energy prices drove up raw material prices and affected profit margins.

Sukuk

During the financial year under review, US Fed cut interest rates 3 times (75 bps in total) in the second half of 2025, bringing interest rates down to a target range of 3.50% to 3.75% by year end. Meanwhile, BNM took pre-emptive action to support growth by cutting OPR by 25 bps to 2.75% in July. Domestic sukuk market was positive initially in August on strong global sentiment. However, market turned bearish and sentiment failed to recover despite muted inflation data and fiscal consolidation news on Budi95 targeted fuel subsidy.

The domestic sukuk market subsequently softened in October, driven by weak demand for long-end sukuk despite a positive Budget 2026 outlook. A stronger-than-expected 3Q 2025 Gross Domestic Product (GDP) added to weak sentiment. November saw a recovery, supported by BNM maintaining the OPR at 2.75%, robust demand at government securities auctions and appreciating MYR. December was characterised by thin liquidity, but a positive supply dynamic and continued MYR strength provided support. Key economic data remained benign.

In January 2026, the Malaysian sukuk market sentiment turned bearish following the release of stronger-than-expected 4Q 2025 GDP of 5.7%, which, alongside higher Consumer Price Index (CPI) of 1.6% and robust export data, drove yields higher. External pressures from the steepening US Treasury (UST) curve further strained domestic sentiment. A short recovery occurred after BNM maintained a neutral policy stance at its first Monetary Policy Committee (MPC) meeting in end-January.

In February 2026, domestic sentiment was initially dampened by a poorly received 10Y Malaysian Government Securities (MGS) auction. However, the belly and long-end part of the curve reversed course following the recovery in global market sentiment, and further supported by a neutral BNM policy stance at the March MPC meeting. The local sukuk market maintained a constructive tone throughout March and April, largely decoupling from the volatile global markets. Support stemmed from underwhelming domestic growth data while inflation remained within expectations despite a modest uptick.

In May 2026, BNM maintained the OPR at 2.75%. Malaysia's 1Q 2026 final GDP recorded a slightly higher growth of 5.4% year-on-year (YoY) driven by services and manufacturing sectors. Downside risks have intensified amid escalating ME conflict. Headline inflation rose to 1.9% YoY in April (from 1.7% in March) reflecting the higher cost pressures arising from the ME conflict. In June 2026, under new Fed Chairman Kevin Warsh, the Fed unanimously maintained its Target Rate at 3.50%-3.75%. Meanwhile, the local sukuk market saw lacklustre trading as MYR weakened against the USD to a high of 4.15 amid domestic political uncertainties and US hawkishness. Despite these headwinds, the market was somewhat supported by robust macroeconomic indicators.

V. FUTURE PROSPECTS AND PROPOSED STRATEGIES

Shariah-compliant Equities

Geopolitical tensions have complicated the investment outlook globally. Conflict in Iran has resulted in energy prices increasing exponentially, intensifying fears of a global growth deceleration increased inflation. Heavy investments in the tech and semiconductor sector driven by AI advancements will continue to bode well for stocks exposed in those areas, but we expect volatility to continue given sharp share price appreciations already and the dynamic nature of the technological advancements. The Fund aims to be relatively defensive and nimble during this period, while remaining sanguine that Malaysia's structural economic drivers remain fundamentally intact over the longer term.

Sukuk

The US rate path remains clouded as the Fed upwardly revised its 2026 inflation forecasts. We expect an extended policy pause through 2026, though rate hike risks are rising. Domestically, contained core inflation reinforces a prolonged pause in rates. Domestically, we expect the OPR to stay unchanged at 2.75% through the year amid resilient economic fundamentals and a manageable inflation backdrop.

We continue to favour high credit quality corporate sukuk over government and government guaranteed Islamic papers for yield pickup. We will also continue to look for trading opportunities in both government and corporate sukuk.

VI. SOFT COMMISSIONS

The Manager has received soft commissions from brokers/ dealers in the form of goods and services such as research materials, data and quotation services incidental to investment management of the Fund and investment related publications. Such soft commissions received are utilised in the investment management of the Fund and are of demonstrable benefit to the Fund and Unit holders and there was no churning of trades.

VII. SECURITIES LENDING OR REPURCHASE TRANSACTIONS

No securities lending or repurchase transactions have been carried out during the financial year under review.

VIII. CROSS TRADE TRANSACTIONS

No cross trade transactions have been carried out during the financial year under review.

Notes: Q = Quarter
Y = Year

STATEMENT BY THE MANAGER

I, Chue Kwok Yan, as the Director of Hong Leong Asset Management Bhd, do hereby state that, in the opinion of the Manager, the financial statements set out on pages 19 to 64 are drawn up in accordance with the provision of the Deeds and give a true and fair view of the financial position of the Fund as at 30 June 2026 and of its financial performance, changes in equity and cash flows for the financial year ended 30 June 2026 in accordance with the Malaysian Financial Reporting Standards and International Financial Reporting Standards.

INDEPENDENT AUDITORS' REPORT

TO THE UNIT HOLDERS OF HONG LEONG DANA MAA'ROF

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of Hong Leong Dana Maa'rof ("the Fund") give a true and fair view of the financial position of the Fund as at 30 June 2026, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 30 June 2026, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 19 to 64.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information other than the financial statements and auditors' report thereon

The Manager of the Fund is responsible for the other information. The other information comprises the Manager's Review and Report, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the financial statements

The Manager of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to terminate the Fund, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

(a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

(b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.

(c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.

(d) Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

(e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

OTHER MATTERS

This report is made solely to the unit holders of the Fund and for no other purpose. We do not assume responsibility to any other person for the content of this report.

Distributions for the financial year	8	(2,248,430)	(2,385,987)	(4,634,417)
Balance as at 30 June 2026		89,632,539	12,252,792	101,885,331
Balance as at 1 July 2024		110,273,889	21,542,557	131,816,446
Movement in net asset value:				
Creation of units from applications		35,312,905	-	35,312,905
Creation of units from distributions		5,426,624	-	5,426,624
Cancellation of units		(28,913,604)	-	(28,913,604)
Total comprehensive loss for the financial year		-	(11,753,831)	(11,753,831)
Distributions for the financial year	8	(953,032)	(5,345,089)	(6,298,121)
Balance as at 30 June 2025		121,146,782	4,443,637	125,590,419

The accompanying notes to the financial statements form an integral part of these financial statements.

STATEMENT OF CASH FLOWS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2026

	Note	2026 RM	2025 RM
CASH FLOWS FROM OPERATING ACTIVITIES			
Proceeds from sales of financial assets at FVTPL		67,693,024	68,512,035
Proceeds from redemption of financial assets at FVTPL		-	2,500,000
Purchase of financial assets at FVTPL		(39,041,629)	(76,634,851)
Profit income received from financial assets measured at FVTPL and amortised cost		2,425,490	2,745,515
Dividend income received		1,320,179	1,879,260
Management fee paid		(1,707,358)	(1,909,383)
Trustee's fee paid		(79,676)	(89,105)
Payment for other fees and expenses		(148,592)	(45,141)
Net cash generated from/(used in) operating activities		30,461,438	(3,041,670)
CASH FLOWS FROM FINANCING ACTIVITIES			
Proceeds from creation of units		20,071,227	35,192,744
Payments for cancellation of units		(53,010,494)	(28,972,897)
Payments for distributions		(735,723)	(871,497)
Net cash (used in)/generated from financing activities		(33,674,990)	5,348,350
NET (DECREASE)/INCREASE IN CASH AND CASH EQUIVALENTS		(3,213,552)	2,306,680
CASH AND CASH EQUIVALENTS AT THE BEGINNING OF THE FINANCIAL YEAR		7,888,939	5,582,259
CASH AND CASH EQUIVALENTS AT THE END OF THE FINANCIAL YEAR	9	4,675,387	7,888,939

The accompanying notes to the financial statements form an integral part of these financial statements.

1. THE FUND, THE MANAGER AND THEIR PRINCIPAL ACTIVITIES

Hong Leong Dana Maa'rof ("the Fund") was constituted pursuant to the execution of a Deed dated 27 February 2003 and Supplemental Deed dated 30 April 2010 between Hong Leong Asset Management Bhd ("the Manager") and AmTrustee Berhad for the unit holders of the Fund. AmTrustee Berhad has been replaced with Deutsche Trustees Malaysia Berhad ("the Trustee") effective 1 September 2012 and Supplemental Master Deeds were entered into between the Manager and the Trustee for the unit holders of the Fund on 27 July 2012, 25 March 2015, 28 November 2019, 7 February 2020, 21 December 2021, 28 April 2022, 23 March 2023, 23 October 2023 and 13 February 2024 to effect the change (collectively referred to as "the Deeds").

The Fund is primarily an Islamic balanced fund which seeks to achieve not only regular income but also meaningful medium to long-term capital growth. The Fund provides the public an affordable access into a diversified investment portfolio containing a 'balanced' mixture of equities and fixed income securities that comply with the Shariah requirements.

The Fund will invest between 40% to 60% of its net asset value into Shariah-compliant equities. The Fund follows a strict selection process to ensure only appropriate Shariah-compliant securities are invested. Generally, the Fund selects undervalued companies that have the potential to offer medium to long-term capital growth. Undervalued companies refer to companies with stock price selling at a price lower than what is believed to be its intrinsic value and can be measured by its price to earnings ratio (PER), price to book ratio (P/B), dividend yield or any other appropriate method as determined by the Manager. The Fund may also invest between 40% to 60% of its net asset value into Islamic money market instruments and sukuk. In the case of sukuk, selection depends largely on credit quality of the sukuk and its issuer to assure relative certainty in profit income; principal payment; and overall total return stability. The Fund commenced operations on 25 March 2003 and will continue its operations until terminated as provided under Part 12 of the Deeds.

The Manager of the Fund is Hong Leong Asset Management Bhd, a company incorporated in Malaysia. The principal activity of the Manager is the management of unit trust funds, private retirement schemes and private investment mandates. Its holding company is Hong Leong Capital Berhad, a company incorporated in Malaysia and listed on the Main Market of Bursa Malaysia Securities Berhad.

Hong Leong Islamic Asset Management Sdn Bhd ("HLISAM") is the external fund manager appointed for Hong Leong Dana Maa'rof. The effective date for the appointment is on 17 April 2020. HLISAM is a wholly owned subsidiary of the Manager. On November 2019, HLISAM was issued with an Islamic fund management license by the Securities Commission Malaysia ("SC") to undertake the regulated activity of Islamic fund management.

2. MATERIAL ACCOUNTING POLICY INFORMATION

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation

The financial statements have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRS") and International Financial Reporting Standards.

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and International Financial Reporting Standards requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reported financial year. It also requires the Manager to exercise their judgement in the process of applying the Fund's accounting policies. The Manager believes that the underlying assumptions are appropriate and the Fund's financial statements therefore present the financial position results fairly. Although these estimates and judgement are based on the Manager's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(k).

(i) Standards, amendments to published standard and interpretations that are applicable and effective:

There are no standards, amendments to standards or interpretations that are applicable and effective for annual periods beginning on 1 July 2025 that have a material effect on the financial statements of the Fund.

(ii) Standards and amendments that have been issued that are applicable to the Fund but not yet effective:

- Amendments to MFRS 9 and MFRS 7 'Amendments to the Classification and Measurement of Financial Instruments' (effective 1 January 2026):
  - The amendments clarify that financial assets are derecognised when the rights to the cash flows expire or when the asset is transferred, and financial liabilities are derecognised at the settlement date (i.e. when the liability is extinguished or qualifies for derecognition).
  - There is an optional exception to derecognise a financial liability at a date earlier than the settlement date if the cash transfer takes place through an electronic payment system, provided that all the specified criteria are met;
  - The amendments also clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest ("SPPI") criterion;
  - There are additional new disclosures for certain instruments with contractual terms that can change cash flows (such as some financial instruments with features linked to the achievement of environment, social and governance targets); and
  - The amendments update the disclosures for equity instruments designated at fair value through other comprehensive income ("FVOCI").
- Annual Improvements to MFRS Accounting Standards for enhanced consistency (effective 1 January 2026).

- MFRS 18 'Presentation and Disclosure in Financial Statements' (effective 1 January 2027) replaces MFRS 101 'Presentation of Financial Statements'.

    - The new MFRS introduces a new structure of profit or loss statement.

        (a) Income and expenses are classified into 3 new main categories:

            i. Operating category which typically includes results from the main business activities;
            ii. Investing category that presents the results of investments in associates and joint ventures and other assets that generate a return largely independently of other resources; and
            iii. Financing category that presents income and expenses from financing liabilities.

        (b) Entities are required to present two new specified subtotals: 'Operating profit or loss' and 'Profit or loss before financing and income taxes'.

    - Management-defined performance measures are disclosed in a single note and reconciled to the most similar specified subtotal in MFRS Accounting Standards.

    - Changes to the guidance on aggregation and disaggregation which focus on grouping items based on their shared characteristics.

The Fund is currently still assessing the effect of the above standards and amendments. No other new standards or amendments to standards are expected to have a material effect on the financial statements of the Fund.

(b) Financial assets and financial liabilities

Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its Shariah-compliant investments based on both the Fund's business model for managing those financial assets and the contractual cash flows characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities[1] as fair value through other comprehensive income. The contractual cash flows of the Fund's debt securities[2] are solely principal and profit. However, these Shariah-compliant securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all Shariah-compliant investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, amount due from brokers/dealers, amount due from the Manager and dividends receivable as financial assets measured at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

[1] For the purposes of the investments made by the Fund, equity securities refer to Shariah-compliant equity securities.
[2] For the purposes of the investments made by the Fund, debt securities refer to sukuk.

The Fund classifies amount due to brokers/dealers, amount due to the Manager, amount due to the Trustee and other payables and accruals as financial liabilities measured at amortised cost.

Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date – the date on which the Fund commits to purchase or sell the asset. Shariah-compliant investments are initially recognised at fair value. Transaction costs are expensed in the statement of comprehensive income.

Financial liabilities, within the scope of MFRS 9, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the Shariah-compliant investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within net gain or loss on financial assets at fair value through profit or loss in the financial year which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of dividend income when the Fund's right to receive payments is established.

Quoted Shariah-compliant investments are valued at the last traded market prices quoted on Bursa Malaysia Securities Berhad ("Bursa Securities") at the date of the statement of financial position.

If a valuation based on the market price does not represent the fair value of the quoted Shariah-compliant investments, for example during abnormal market conditions or when no market price is available, including in the event of a suspension in the quotation of the quoted Shariah-compliant securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee, then the quoted Shariah-compliant securities are valued as determined in good faith by the Manager, based on the methods or bases approved by the Trustee after appropriate technical consultation.

Unquoted sukuk are revalued on a daily basis based on fair value prices quoted by a bond pricing agency ("BPA") registered with the Securities Commission Malaysia as per the Securities Commission Malaysia's Guidelines on Unit Trust Funds. Where such quotation are not available or where the Manager is of the view that the price quoted by the BPA for a specific unquoted sukuk differs from the market price by more than 20 basis points, the Manager may use the market price, provided that the Manager:

(i) records its basis for using non-BPA price;
(ii) obtains necessary internal approvals to use the non-BPA price; and
(iii) keeps an audit trail of all decisions and basis for adopting the market yield.

Islamic deposits with licensed financial institutions are stated at cost plus accrued profit calculated on the effective profit rate method over the period from the date of placement to the date of maturity of the respective Islamic deposits, which is a close estimate of their fair value due to the short term nature of the Islamic deposits. Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective profit rate method.

Impairment

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. Management considers the probability of default to be closed to zero as these Shariah-compliant instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit-impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of obligor's sources of income or assets to generate sufficient future cash flows to pay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

(c) Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's functional and presentation currency.

(d) Income recognition

Dividend income is recognised on the ex-dividend date when the Fund's right to receive payment is established.

Profit income from Islamic deposits with licensed financial institutions, auto-sweep facility bank account and unquoted sukuk are recognised on the effective profit rate method on an accrual basis.

Profit income is calculated by applying the effective profit rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Realised gain or loss on disposal of quoted Shariah-compliant investments is accounted for as the difference between the net disposal proceeds and the carrying amount of quoted Shariah-compliant investments, determined on a weighted average cost basis.

Realised gain or loss on disposal of unquoted sukuk is accounted for as the difference between the net disposal proceeds and the carrying amount of unquoted sukuk, determined on cost adjusted for accretion of discount or amortisation of premium.

(e) Cash and cash equivalents

For the purpose of statement of cash flows, cash and cash equivalents comprise cash at banks and Islamic deposits with licensed financial institutions held in highly liquid Shariah-compliant investments that are readily convertible to known amounts of cash with an original maturity of three months or lesser which are subject to an insignificant risk of changes in value.

(f) Amount due from/to brokers/dealers

Amount due from/to brokers/dealers represents receivables/payables for Shariah-compliant investments sold/purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively.

These amounts are recognised initially at fair value and subsequently measured at amortised cost using the effective profit rate method, less provision for impairment of amount due from brokers/dealers. A provision for impairment of amount due from a broker/dealer is established when there is objective evidence that the Fund will not be able to collect all amounts due from the relevant broker/dealer. Significant financial difficulties of the broker/dealer, probability that the broker/dealer will enter bankruptcy or financial reorganisation, and default in payments are considered indicators that the amount due from brokers/dealers is impaired. Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, profit income is recognised using the rate of profit used to discount the future cash flows for the purpose of measuring the impairment loss.

(g) Taxation

Current tax expense is determined according to Malaysian tax laws at the prevailing tax rate based on the taxable profit earned during the financial year.

(h) Distributions

A distribution to the Fund's unit holders is accounted for as a deduction from realised reserve. A proposed distribution is recognised as a liability in the financial year in which it is approved by the Board of Directors of the Manager.

(i) Transaction costs

Transaction costs are costs incurred to acquire or dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents and brokers/dealers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

(j) Unit holders' capital

The unit holders' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the unit holder to a proportionate share of the Fund's net asset value;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase the units; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss and change in the net asset value of the Fund.

The outstanding units are carried at the redemption amount that is payable at the date of the statement of financial position if unit holder exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's net asset value per unit at the time of creation and cancellation. The Fund's net asset value per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units.

(k) Critical accounting estimates and judgements in applying accounting policies

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgements are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the Securities Commission Malaysia's Guidelines on Unit Trust Funds.

However, the Manager is of the opinion that there are no accounting policies which require significant judgement to be exercised.

3. FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk and interest rate risk), credit risk, liquidity risk, capital risk and Shariah status reclassification risk.

Financial risk management is carried out through internal control process adopted by the Manager and adherence to the investment restrictions as stipulated in the prospectus.

The following table analyses the financial assets and financial liabilities of the Fund in the statement of financial position as at the reporting date:

	Financial assets at FVTPL RM	Financial assets/ liabilities at amortised cost RM	Total RM
2026			
Financial assets			
Cash and cash equivalents (Note 9)	-	4,675,387	4,675,387
Amount due from the Manager			
-creation of units	-	404,087	404,087
Dividends receivable	-	20,000	20,000
Financial assets at FVTPL (Note 10)	97,286,049	-	97,286,049
	97,286,049	5,099,474	102,385,523
Financial liabilities			
Amount due to the Manager			
-cancellation of units	-	342,303	342,303
-management fee	-	137,374	137,374
Amount due to the Trustee	-	6,411	6,411
Other payables and accruals	-	14,104	14,104
	-	500,192	500,192
2025			
Financial assets			
Cash and cash equivalents (Note 9)	-	7,888,939	7,888,939
Amount due from brokers/dealers	-	399,815	399,815
Amount due from the Manager			
-creation of units	-	485,913	485,913
Dividends receivable	-	72,000	72,000
Financial assets at FVTPL (Note 10)	117,981,212	-	117,981,212
	117,981,212	8,846,667	126,827,879
Financial liabilities			
Amount due to brokers/dealers	-	867,069	867,069
Amount due to the Manager			
-cancellation of units	-	198,889	198,889
-management fee	-	153,624	153,624
Amount due to the Trustee	-	7,169	7,169
Other payables and accruals	-	10,709	10,709
	-	1,237,460	1,237,460

All liabilities are financial liabilities which are carried at amortised cost.

(a) Market risk

(i) Price risk

Price risk arises mainly from the uncertainty about future prices of Shariah-compliant investments. It represents the potential loss the Fund might suffer through holding market positions in the face of price movements. The Manager manages the risk of unfavourable changes in prices by continuous monitoring of the performance and risk profile of the Shariah-compliant investment portfolio.

The price risk is managed through diversification and selection of Shariah-compliant securities and other Shariah-compliant financial instruments within specified limits according to the Deeds.

The Fund's overall exposure to price risk is as follows:

	2026 RM	2025 RM
Financial assets at FVTPL:		
- Quoted Shariah-compliant equity securities	52,901,596	62,400,333
- Unquoted sukuk*	44,384,453	55,580,879
	97,286,049	117,981,212

* Includes profit receivables of RM397,460 (2025: RM584,719).

The table below summarises the sensitivity of the Fund's net asset value and profit/(loss) after taxation to movements in prices of quoted Shariah-compliant equity securities and unquoted sukuk at the end of each reporting year. The analysis is based on the assumptions that the market price of the quoted Shariah-compliant equity securities and unquoted sukuk fluctuated by 5% with all other variables remain constants. This represents management's best estimate of a reasonable possible shift in the quoted Shariah-compliant equity securities and unquoted sukuk having regard to the historical volatility of the prices.

% Change in price of financial assets at FVTPL	Market value RM	Impact on profit/(loss) after taxation/ net asset value RM
2026		
-5%	92,044,160	(4,844,429)
0%	96,888,589	-
5%	101,733,018	4,844,429
2025		
-5%	111,526,668	(5,869,825)
0%	117,396,493	-
5%	123,266,318	5,869,825

(ii) Interest rate risk

In general, when interest rates rise, prices for sukuk will tend to fall and vice versa. Therefore, the net asset value of the Fund may also tend to fall when interest rates rise or are expected to rise. However, investors should be aware that should the Fund hold a sukuk till maturity, such price fluctuations would dissipate as it approaches maturity, and thus the growth of the net asset value shall not be affected at maturity. In order to mitigate interest rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future interest rate trend of the Manager, which is based on its continuous fundamental research and analysis.

This risk is crucial since unquoted sukuk portfolio management depends on forecasting interest rate movements. Prices of unquoted sukuk move inversely to interest rate movements, therefore as interest rates rise, the prices of unquoted sukuk decrease and vice versa. Furthermore, unquoted sukuk with longer maturity and lower yield profit rates are more susceptible to interest rate movements.

Investors should note that unquoted sukuk are subject to interest rate fluctuations. Such investments may be subject to unanticipated rise in interest rates which may impair the ability of the issuers to make payments of profit income and principal, especially if the issuers are highly leveraged. An increase in interest rates may therefore increase the potential for default by an issuer.

The above interest rate is a general economic indicator that will have an impact on the management of the Fund regardless whether it is an Islamic unit trust fund or otherwise. It does not in any way suggest that the Fund will invest in conventional financial instruments. All the investments carried out for the Fund are in accordance with Shariah requirements.

The table below summarises the sensitivity of the Fund's net asset value and profit/(loss) after taxation to movements in prices of unquoted sukuk held by the Fund at the end of the reporting year as a result of movement in interest rate. The analysis is based on the assumptions that the interest rate changed by 1% (100 basis points) with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the interest rate, having regard to the historical volatility of the interest rate.

	Impact on profit/(loss) after taxation/net asset value	
% Change in interest rate	**2026 RM**	**2025 RM**
+1%	(88,522)	(111,419)
-1%	77,443	96,479

The Fund's exposure to interest rate risk associated with Islamic deposits with licensed financial institutions are not material as the Islamic deposits with licensed financial institutions are placed on a short term basis.

(b) Credit risk

Credit risk refers to the risk that an issuer or counterparty will default on its contractual obligation resulting in financial loss to the Fund.

Investment in unquoted sukuk may involve a certain degree of credit/default risk with regards to the issuers. Generally, credit risk or default risk is the risk of loss due to the issuer's non-payment or untimely payment of the investment amount as well as the returns on investment. This will cause a decline in value of the defaulted unquoted sukuk and subsequently depress the net asset value of the Fund. Usually credit risk is more apparent for an investment with a longer tenure, i.e. the longer the duration, the higher the credit risk. Credit risk can be managed by performing continuous fundamental credit research and analysis to ascertain the creditworthiness of its issuer. In addition, the Manager imposes a minimum rating requirement as rated by either local and/or foreign rating agencies and manages the duration of the investment in accordance with the objective of the Fund.

The credit risk arising from placements of Islamic deposits with licensed financial institutions is managed by ensuring that the Fund will only place Islamic deposits in reputable licensed financial institutions.

The settlement terms of the proceeds from the creation of units receivable from the Manager are governed by the Securities Commission Malaysia's Guidelines on Unit Trust Funds.

For amount due from brokers/dealers, the settlement terms are governed by the relevant rules and regulations as prescribed by Bursa Securities. The credit/default risk is minimal as all transactions in quoted Shariah-compliant investments and unquoted sukuk are settled/paid upon delivery using approved brokers/dealers.

The following table sets out the credit risk concentration of the Fund at the end of each reporting year:

	Cash and cash equivalents RM	Amount due from brokers/ dealers RM	Amount due from the Manager - creation of units RM	Dividends receivable RM	Unquoted sukuk RM	Total RM
2026						
- AAA	4,675,387	-	-	-	17,945,240	22,620,627
- AA1/AA+	-	-	-	-	15,449,244	15,449,244
- AA2/AA	-	-	-	-	10,989,969	10,989,969
- NR#	-	-	404,087	20,000	-	424,087
Total	4,675,387	-	404,087	20,000	44,384,453	49,483,927
2025						
- AAA	7,888,939	365,895	-	-	16,131,065	24,385,899
- AA1/AA+	-	-	-	-	20,687,199	20,687,199
- AA2/AA	-	-	-	-	11,073,253	11,073,253
- NR#	-	33,920	485,913	72,000	7,689,362	8,281,195
Total	7,888,939	399,815	485,913	72,000	55,580,879	64,427,546

The unquoted sukuk are not rated as the sukuk are guaranteed and issued by the Government of Malaysia.

All financial assets of the Fund are neither past due nor impaired.

(c) Liquidity risk

Liquidity risk is the risk that Shariah-compliant investments cannot be readily sold at or near its actual value without taking a significant discount. This will result in lower net asset value of the Fund.

The Manager manages this risk by maintaining sufficient level of Islamic liquid assets to meet anticipated payments and cancellations of the units by unit holders. Islamic liquid assets comprise cash at banks, Islamic deposits with licensed financial institutions and other Shariah-compliant instruments.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at the end of each reporting year to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	Less than 1 month RM	1 month to 1 year RM	Total RM
2026			
Financial liabilities			
Amount due to the Manager			
-cancellation of units	342,303	-	342,303
-management fee	137,374	-	137,374
Amount due to the Trustee	6,411	-	6,411
Other payables and accruals	-	14,104	14,104
Contractual cash out flows	486,088	14,104	500,192
2025			
Financial liabilities			
Amount due to brokers/dealers	867,069	-	867,069
Amount due to the Manager			
-cancellation of units	198,889	-	198,889
-management fee	153,624	-	153,624
Amount due to the Trustee	7,169	-	7,169
Other payables and accruals	-	10,709	10,709
Contractual cash out flows	1,226,751	10,709	1,237,460

(d) Capital risk

The capital of the Fund is represented by equity consisting of unit holders' capital and retained earnings. The amount of equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unit holders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unit holders and benefits for other stakeholders and to maintain a strong capital base to support the development of the Shariah-compliant investment activities of the Fund.

(e) Shariah status reclassification risk

(i) Shariah-compliant equity securities

This risk refers to the risk that the currently held Shariah-compliant equity securities in the portfolio of the Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the Shariah Advisory Council of the Securities Commission ("SAC of the SC"), the Shariah Adviser or the Shariah authorities of the relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose of such securities.

Opportunity loss could occur due to the restriction on the Fund to retain the excess capital gains derived from the disposal of the reclassified Shariah non-compliant securities. In such an event, the Fund is required:

- to dispose of such securities with immediate effect or within one (1) calendar month if the value of the securities exceeds or is equal to the investment cost on the reclassification effective date by the SAC of the SC or the Shariah Adviser or the Shariah authorities of the relevant Islamic indices. The Fund is allowed to keep dividends received and capital gains from the disposal of the securities up to the reclassification effective date. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities after the reclassification effective date should be channelled to *baitulmal* and/or charitable bodies as advised by the Shariah Adviser;

- to hold such securities if the value of the said securities is below the investment cost on the reclassification effective date until the total subsequent dividends received (if any) and the market price of the securities is equal to the cost of investment at which time disposal has to take place within one (1) calendar month, excess capital gains (if any) from the disposal of the securities should be channelled to *baitulmal* and/or charitable bodies as advised by the Shariah Adviser; or

- to dispose of such securities at a price lower than the investment cost which will result in a decrease in the Fund's value.

(ii) Sukuk or Islamic money market instruments or Islamic deposits

This risk refers to the risk of a possibility that the currently held sukuk or Islamic money market instruments or Islamic deposits invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such fixed income instruments or money market instruments or deposits.

(f) Fair value estimation

Financial instruments comprise financial assets and financial liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The information presented herein represents the estimates of fair values as at the date of the statement of financial position.

The Fund's financial assets and financial liabilities are measured on an ongoing basis at either fair value or at amortised cost based on the respective classification.

The fair value of financial assets traded in active markets (such as trading Shariah-compliant securities) are based on quoted market prices at the close of trading on the reporting date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each year end date. Valuation techniques used for non-standardised financial instruments such as Islamic options, Islamic currency swaps and other over-the-counter Islamic derivatives, include the use of comparable recent arm's length transactions, reference to other Shariah-compliant instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

For instruments for which there is no active market, the Fund may use internally developed models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. Valuation models are used primarily to value unlisted Shariah-compliant equity and sukuk instruments for which market were or have been inactive during the financial year. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including model risk, liquidity risk and counterparty risk.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an on-going basis.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1);
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2); and
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirely is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirely. For this purpose, the significance of an input is assessed against the fair value measurement in its entirely. If a fair value measurement uses observable inputs that requires significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirely requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy of the Fund's financial assets (by class) measured at fair value:

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
2026				
Financial assets at FVTPL:				
- Quoted Shariah-compliant equity securities	52,901,596	-	-	52,901,596
- Unquoted sukuk	-	44,384,453	-	44,384,453
	52,901,596	44,384,453	-	97,286,049
2025				
Financial assets at FVTPL:				
- Quoted Shariah-compliant equity securities	62,400,333	-	-	62,400,333
- Unquoted sukuk	-	55,580,879	-	55,580,879
	62,400,333	55,580,879	-	117,981,212

Shariah-compliant investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include active listed Shariah-compliant equities. The Fund does not adjust the quoted prices for these instruments. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include unquoted sukuk. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

(ii) The carrying values of financial assets (other than financial assets at FVTPL) and financial liabilities are a reasonable approximation of their fair values due to their short term nature.

4. PROFIT INCOME FROM FINANCIAL ASSETS MEASURED AT AMORTISED COST

	2026 RM	2025 RM
Profit income from:		
- Islamic deposits with licensed financial institutions	184,770	325,378
- Auto-sweep facility bank account	2,405	5,076
	187,175	330,454

5. MANAGEMENT FEE

In accordance with Ninth Supplemental Master Deed dated 13 February 2024, the Manager is entitled to a management fee of up to 2.00% per annum calculated daily based on the net asset value of the Fund.

For the financial year ended 30 June 2026, the management fee is recognised at a rate of 1.50% (2025: 1.50%) per annum.

There is no further liability to the Manager in respect of management fee other than the amount recognised above.

6. TRUSTEE'S FEE

In accordance with Division 13.2 of the Deeds, the Trustee is entitled to a fee not exceeding 0.07% per annum subject to a minimum of RM18,000 per annum calculated daily based on the net asset value of the Fund.

For the financial year ended 30 June 2026, the Trustee's fee is recognised at a rate of 0.07% (2025: 0.07%) per annum.

There is no further liability to the Trustee in respect of Trustee's fee other than the amount recognised above.

7. TAXATION

	2026 RM	2025 RM
Tax charge for the financial year:		
Current taxation	-	-

The numerical reconciliation between profit/(loss) before taxation multiplied by the Malaysian statutory income tax rate and tax expense of the Fund is as follows:

	2026 RM	2025 RM
Profit/(loss) before taxation	10,195,142	(11,753,831)
Taxation at Malaysian statutory rate of 24% (2025: 24%)	2,446,834	(2,820,919)
Tax effects of:		
(Shariah-compliant investment income not subject to tax)/Shariah-compliant investment loss not brought to tax	(2,988,790)	2,246,204
Expenses not deductible for tax purposes	126,667	110,488
Restriction on tax deductible expenses for unit trust fund	415,289	464,227
Taxation	-	-

8. DISTRIBUTIONS

	2026 RM	2025 RM
Distributions to unit holders are derived from the following sources:		
Prior financial years' realised income	1,283,252	1,625,584
Profit income from financial assets measured at FVTPL	1,658,085	1,922,136
Profit income from financial assets measured at amortised cost	154,934	273,971
Dividend income	1,085,599	1,657,782
Net realised gain on disposal	-	1,749,939
Distribution equalisation	2,248,430	953,032
Less: Expenses	(1,795,883)	(1,884,323)
Net distributions amount	4,634,417	6,298,121
Gross/net distribution per unit (sen)	2.0000	2.6000
Date of Entitlement		
15 July 2025 / 18 July 2024		
Gross/net distribution per unit (sen)	0.5000	0.7000
15 October 2025 / 15 October 2024		
Gross/net distribution per unit (sen)	0.5000	0.7000
15 January 2026 / 15 January 2025		
Gross/net distribution per unit (sen)	0.5000	0.7000
15 April 2026 / 15 April 2025		
Gross/net distribution per unit (sen)	0.5000	0.5000

The composition of distribution payments sourced from income and capital are disclosed in below:

	Income RM	%	Capital RM	%
2026	2,385,987	51.48	2,248,430	48.52
2025	5,345,089	84.87	953,032	15.13

Net distributions above are sourced from prior and current financial years' realised income. Gross distributions are derived using total income less total expenses.

Gross distribution per unit is derived from net realised income less expenses divided by units in circulation, while net distribution per unit is derived from net realised income less expenses and taxation divided by units in circulation.

Distribution equalisation represents the average amount of distributable income included in the creation and cancellation prices of units. It is computed as at each date of creation and cancellation of units. For the purpose of determining amount available for distribution, distribution equalisation is included in the computation of distribution available for unit holders.

Included in the above distributions was an amount of RM1,283,252 (2025: RM1,625,584) derived from prior financial years' realised income.

There are unrealised losses of RM15,283,411 for the financial year ended 30 June 2025.

9. CASH AND CASH EQUIVALENTS

	2026 RM	2025 RM
Islamic deposits with licensed financial institutions	4,655,364	7,748,637
Cash at banks	20,023	140,302
	4,675,387	7,888,939

The weighted average effective rate of return per annum are as follows:

	2026 %	2025 %
Islamic deposits with licensed financial institutions	2.85	3.00

Islamic deposits with licensed financial institutions have an average remaining maturity of 1 day (2025: 1 day).

10. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS ("FVTPL")

	2026 RM	2025 RM
Financial assets at FVTPL:		
Quoted Shariah-compliant equity securities	52,901,596	62,400,333
Unquoted sukuk	44,384,453	55,580,879
	97,286,049	117,981,212
Net gain/(loss) on financial assets at FVTPL:		
Realised gain on disposals	2,185,743	1,525,041
Changes in unrealised fair values	6,880,936	(15,288,312)
	9,066,679	(13,763,271)

Financial assets at FVTPL as at 30 June 2026 are as detailed below:

11. SHARIAH INFORMATION OF THE FUND

The Shariah Adviser confirmed that the investments portfolio of the Fund is Shariah-compliant, which comprises:

(a) Equity securities listed on Bursa Malaysia which have been classified as Shariah-compliant by the Shariah Advisory Council of the Securities Commission;

(b) Sukuk as per the list of sukuk available at Bond Info Hub, Fully Automated System for Issuing/Tendering of Bank Negara Malaysia and The Bond and Sukuk Information Exchange; and

(c) Cash placements and liquid assets in local market, which are placed in Shariah-compliant investments and/or instruments.

12. UNITS IN CIRCULATION

	2026 No. of units	2025 No. of units
At the beginning of the financial year	255,468,355	232,368,628
Add: Creation of units during the financial year		
- Arising from applications	39,985,408	67,667,421
- Arising from distributions	7,832,415	10,436,587
Less: Cancellation of units during the financial year	(106,353,188)	(55,004,281)
At the end of the financial year	196,932,990	255,468,355

13. TOTAL EXPENSE RATIO ("TER")

	2026 %	2025 %
TER	1.71	1.60

Total expense ratio includes management fee, Trustee's fee, auditors' remuneration, tax agent's fee and other expenses for the financial year divided by the Fund's average net asset value calculated on a daily basis and is calculated as follows:

$$\text{TER} = \frac{(A+B+C+D+E)}{F} \times 100$$

Where;

A = Management fee
B = Trustee's fee
C = Auditors' remuneration
D = Tax agent's fee
E = Other expenses
F = Average net asset value of the Fund calculated on a daily basis

The average net asset value of the Fund for the financial year calculated on a daily basis is RM112,655,032 (2025: RM126,725,054).

14. PORTFOLIO TURNOVER RATIO ("PTR")

	2026 Times	2025 Times
PTR	0.46	0.57

PTR is derived from the following calculation:

(Total acquisitions for the financial year + total disposals for the financial year) / 2

Average net asset value of the Fund for the financial year calculated on a daily basis

Where;

total acquisitions for the financial year
= RM38,043,540 (2025: RM76,572,648)
total disposals for the financial year
= RM65,425,308 (2025: RM66,659,847)

15. UNITS HELD BY THE MANAGER AND RELATED PARTIES TRANSACTIONS AND BALANCES

The related parties and their relationships with the Fund are as follows:

Related parties	Relationships
Hong Leong Asset Management Bhd	The Manager
Hong Leong Islamic Asset Management Sdn Bhd	Subsidiary of the Manager
Hong Leong Capital Berhad	Holding company of the Manager
Hong Leong Financial Group Berhad ("HLFG")	Ultimate holding company of the Manager
HLB Nominees (Tempatan) Sdn Bhd	Subsidiary of the ultimate holding company of the Manager
Subsidiaries and associates of HLFG as disclosed in its financial statements	Subsidiaries and associate companies of the ultimate holding company of the Manager

Units held by parties related to the Manager

	2026		2025	
	Units	RM	Units	RM
HLB Nominees (Tempatan) Sdn Bhd	10,236,564	5,296,399	15,294,056	7,518,558
