Hong Leong Islamic Income Management Fund has been certified as Shariah-compliant by the Shariah adviser appointed for the Fund.

PRODUCT HIGHLIGHTS SHEET

HONG LEONG ISLAMIC INCOME MANAGEMENT FUND

BRIEF INFORMATION ON THE FUND

1. What is this fund about?

Hong Leong Islamic Income Management Fund ("HLIIMF" or the "Fund") is an Islamic fixed income fund managed by Hong Leong Asset Management Bhd (the "Manager") that aims to provide investors with a low risk investment portfolio offering a stable and regular stream of income¹ and stability in capital² while adhering to Shariah requirements.

FUND SUITABILITY

2. Who is this fund suitable for?

HLIIMF is suitable for investors who:

- are looking for Shariah-compliant investments;
- want to preserve their capital²;
- wish to park excess funds in a relatively stable investment vehicle for short to medium term³;
- desire a stable and regular stream of income¹;
- are seeking exposure to the sukuk market; and
- wish to diversify their investments.

The Fund has a Product Risk Rating of 'Low Risk'.

KEY FUND FEATURES

3. What am I investing in?

Category of fund	Fixed income (Islamic).
Type of fund	Income.
Investment objective	To provide investors with a low risk investment portfolio offering a stable and regular stream of income ¹ and stability in capital ² while adhering to Shariah requirements.
Asset allocation (% of the Fund's net asset value ("NAV"))	<ul style="list-style-type: none">• Islamic money market instruments and sukuk: Minimum 70% and maximum 100%.• Islamic liquid assets: Minimum 2%.
Performance benchmark	Malayan Banking Berhad 1-month General Investment Account rate.
Investment process and strategy	<p>To achieve the Fund's investment objective, the Fund intends to invest mainly in Islamic money market instruments and short to medium-term³ sukuk. Islamic money market instruments include Islamic deposits, and other short-term⁴ Islamic money market instruments such as Islamic negotiable instruments. The financial institution in Malaysia with which the Fund has invested its Islamic deposits and Islamic money market instruments must have a credit rating of at least "A3" or "P2" as rated by RAM Rating Services Berhad, or its equivalent ratings by Malaysian Rating Corporation Berhad. If the financial institution is downgraded to below the above stated minimum rating, the Manager will withdraw the invested Islamic deposit or Islamic money market instrument, provided the terms are favorable.</p> <p>In terms of sukuk selection, the Fund will adopt a strict credit selection process to ensure only appropriate sukuk are invested in accordance with the investment objective of the Fund. The Fund's selection process depends largely on the credit quality of its sukuk portfolio to assure relative certainty in principal payment and overall total return stability as well as the marketability of the sukuk to assure liquidity. In selecting individual sukuk, the following are important considerations:-</p> <ul style="list-style-type: none">• Issuers' and/or guarantors' industry and business outlook;• Issuers' and/or guarantors' balance sheet and gearing ratios;

Notes:

¹ Income may be distributed in the form of cash and/or units.

² Please take note that this Fund is not a capital guaranteed fund or a capital protected fund and the returns are not guaranteed.

³ 'Short to medium-term' refers to a period of 1 to 3 years.

⁴ 'Short-term' refers to a period of less than 1 year.

	<ul style="list-style-type: none"> • Issuers' and/or guarantors' cash flow quality and volatility; • Issuers' and/or guarantors' future cash flow and ability to service profit payments and principal payment; • Duration analysis; • Collateral type and value and claims priority; • Profit rate-to-maturity; and • Credit rating by domestic or internationally recognised rating agencies. <p>The Fund may invest in short to medium-term sukuk that has a credit rating of at least "P2" or "A3" as rated by RAM or its equivalent ratings by MARC. For foreign sukuk, a foreign issuer must have a credit rating of at least "BB" as rated by S&P or its equivalent rating by another recognised global rating agency.</p> <p>The Fund's investments may include Islamic derivatives such as futures, options, forwards and swaps to hedge against investment risks such as market risk, interest rate risk and currency risk. The Fund's exposure from Islamic derivatives position will not exceed the Fund's NAV at all times.</p>
Distribution policy	<p>The Fund aims to provide monthly income distributions on a best effort basis. The amount of the income distribution will be determined at every month end in order to bring the NAV of the Fund to the proposed range of RM0.5000 per unit. The distribution will be subject to availability of sufficient reserves for income distribution.</p> <p>The Manager's current intention is to declare distributions out of the income and/or capital* of the Fund after deducting fees and expenses incurred by the Fund. Income distribution may be declared out of capital* if the Fund does not have sufficient net realized gains or net realized income from the current financial year. The rationale for providing for payment of distribution out of capital* is to allow for the ability to provide a stable and consistent level of distribution to unit holders. Distribution out of capital* carries the risk of eroding the capital of the Fund and as a result the value of future returns may be diminished.</p> <p><i>Notes:</i> <i>Income distributions (if any) are not guaranteed. Distributions of income will only be made from realized gains or realized income derived from the investments of the Fund(s).</i> <i>* Capital refers to unrealised income or unrealised gain.</i></p>
Launch date	26 April 2007.

4. Who am I investing with?

Manager	Hong Leong Asset Management Bhd [199401033034 (318717-M)].
Trustee	CIMB Commerce Trustee Berhad [199401027349 (313031-A)].
Shariah adviser	BIMB Securities Sdn Bhd [199401004484 (290163-X)].

5. What are the possible outcomes of my investment?

There are many possible outcomes associated with an investment in the Fund. Unit holders can potentially make profit either (i) when the Fund declares and pays out distributions; or (ii) when the unit holder sells their investments in the Fund when the market value of the Fund's portfolio and the its NAV per unit increase. However, this also means that the market value of the Fund's portfolio and its NAV per unit may fall and as a result, unit holders may lose part of its capital. Unit holders should take note that the value of an investment in the Fund and its distribution payable (if any) may go down as well as up and are not guaranteed. Unit holders should also take note that investment in the Fund involves some degree of risk and that the value of their investment is at risk depending on the underlying investments of the Fund.

KEY RISKS

6. What are the key risks associated with this fund?

General risks

Market risk	Market risk refers to the potential losses that may arise from adverse changes in the market prices of the investments of the Fund. Prices of securities that the Fund has invested in may fluctuate in response to market developments (such as adverse changes in government regulations and policies, economic developments, investor sentiment, inflation, interest rates and exchange rates), which would then affect the Fund's NAV per unit.
--------------------	---

Liquidity risk	<p>Liquidity risk comprises two broad risk types; Market Liquidity Risk and Funding Liquidity Risk. Market Liquidity Risk is defined as the ease with which a Shariah-compliant security can be sold at or near its fair value depending on the trading volume of that security in the market. If the Fund holds a large portfolio of Shariah-compliant securities that are less liquid, the Shariah-compliant securities may have to be sold at unfavourable prices and/or withdraw Islamic deposits placed with financial institutions prior to maturity which would expose the Fund to a higher degree of market liquidity risk. As such any premature withdrawal of Islamic deposits where profit income may be forfeited or forced sale of the Fund's investment to meet any shortfall will have adverse impact on the Fund's NAV per unit and subsequently the value of unit holders' investments in the Fund.</p> <p>Funding Liquidity Risk is defined as the risk that the Fund will not be able to meet efficiently both the expected and unexpected current and future cash outflow. The risk primarily involves the Fund's inability to meet redemption requests without major distortion to the portfolio allocation.</p> <p>To mitigate this risk, the Manager will employ prudent liquidity management such as cash flow and redemption monitoring to ensure that the Fund maintains reasonable levels of liquidity to meet any redemption request supplemented by a temporary defensive strategy should adverse conditions prevail. The Manager will apply Liquidity Risk Management tools inclusive of liquidity Stress Test to assess the Fund's viability to meet expected and unexpected redemptions under adverse scenarios. Additionally, the Manager will employ liquidity risk scoring. The liquidity risk scoring is part of the calculation of the risk profile of the fund. It measures the liquidity profile of the investments and is able to trigger the Manager on the investments that have a worsened liquidity positions.</p> <p>The Manager may, in consultation with the Trustee, suspend dealing in units under exceptional circumstances where there is sufficient reason to do so having regard to the interests of the Unit holders in an effort to further curtail the liquidity risk experienced by the Fund. Exceptional circumstances can be considered where the market value or fair value of a material portion of the fund's assets cannot be determined.</p>
Fund management risk	<p>The performance of the Fund is dependent on the experience, knowledge, expertise and investment strategies adopted by the personnel of the Manager. Lack of experience, knowledge and expertise, as well as poor execution of the investment strategy or general management of the Fund may jeopardise the unit holders' capital and returns. In view of this, proper training and stringent selection of personnel to manage the Fund is crucial towards mitigating this risk.</p>
Non-compliance risk	<p>This is the risk where the Manager does not comply with the provisions as set out in the Fund's Deed; or the laws/guidelines that govern the Fund; or its internal procedures and policies. The non-compliance could be due to several factors such as a result of human errors and oversight, system failures or fraudulent acts by the Manager. Any non-compliance may adversely affect the Fund's NAV per unit, especially in situations where the Manager is forced to sell the investments of the Fund at unfavourable price to resolve the non-compliance. The Manager has imposed stringent internal compliance controls to mitigate this risk.</p>
Loan financing risk	<p>The risk occurs when investors take a financing to finance their investment. The inherent risk of investing with financed money includes investors being unable to service the financing payments. In the event units are used as collateral, an investor may be required to top-up the investors existing instalment if the prices of units fall below a certain level due to market conditions. Failing which, the units may be sold at a lower NAV per unit as compared to the NAV per unit at the point of purchase towards settling the financing.</p> <p>Islamic unit trust funds' investors are advised to seek for Islamic financing to finance their acquisition.</p> <p><i>Please see unit trust loan financing risk disclosure statement in the account opening form (individual) section.</i></p>
Inflation/Purchasing power risk	<p>This refers to the likelihood that a Unit holder's investments are not growing at a rate equal or greater than the inflation rate, thus resulting in the Unit holder's decreasing purchasing power.</p>
Suspension of repurchase request risk	<p>Having considered the best interest of unit holders, the repurchase requests by the unit holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the fund's assets cannot be determined. In such case, unit holders will not be able to redeem their units and will be compelled to remain invested in the Fund for a longer period of time than original timeline. Hence, their investments will continue to be subject to the risk inherent to the Fund.</p>

Specific risks

Particular security risk	<p>The performance of each individual security that the Fund invests in will affect the price of units. The performance of each security is dependent on factors which include but are not limited to the management quality of the particular company, its growth potential, changes in consumer tastes and preferences, and conditions specific to the industry of the security that the Fund has invested in. Valued collectively, the performance of individual securities will cause the Fund's NAV per unit to rise or fall accordingly. The Fund's NAV per unit is also dependent on the weightage of the individual securities within the Fund's portfolio. This risk is managed by adherence to a strict investment decision-making process which is applied in the security selection process and involves conducting primary and secondary research on factors relevant to each individual security issuer. For each security, emphasis will be on the company's industry and business outlook, management track record, financial health, earnings quality, growth potential and other financial valuations.</p>
---------------------------------	--

Credit/default risk	Credit risk relates to the creditworthiness of the issuer of a sukuk and the issuer's ability to make timely payments of profits and/or principal. If the issuer fails to meet its sukuk payment obligation in a timely manner, it will lead to a loss in principal and/or profits and result in a default on the payment of principal and/or profits accrued and cause a decline in the value of the defaulted sukuk and subsequently affect the Fund's NAV per unit. The Fund's credit/default risk can be mitigated through a rigorous and disciplined credit research and analysis to ascertain the creditworthiness of the issuer of sukuk prior to the investments. In addition, the Manager may also mitigate this risk by diversifying its investments in sukuk across many issuers. The Manager reserves the right to deal with rating downgrade of an investment in the best interest of the unit holders including to dispose the invested sukuk within a reasonable time frame if the downgrade is below the stipulated minimum rating.
Interest rate risk	<p>This risk refers to the effect of interest rate changes on the market value of the Fund's investments in sukuk/debt securities. In the event of rising interest rates, prices/valuation of sukuk/debt securities tend to move inversely. Meanwhile, sukuk/debt securities with longer maturities and lower profit rates are more sensitive to interest rate changes. This risk can be mitigated via the management of the duration structure of the sukuk/debt securities portfolio by diversifying the investments in sukuk/debt securities across different maturities (e.g. one year, three years and five years) and investing in short-term (i.e. less than three years) sukuk/debt securities.</p> <p>The above interest rate is a general indicator that will have an impact on the management of the Fund regardless whether it is an Islamic unit trust fund or otherwise. It does not in any way suggest that the Islamic unit trust fund will invest in conventional financial instruments. All the investments carried out for the Islamic unit trust fund are in accordance with Shariah requirements.</p>
Counterparty risk	The Fund's placements of Islamic deposits and/or investments in Islamic money market instruments with financial institutions are subject to the risk of the counterparty. Counterparty risk also refers to the possibility that the counterparty being unable to make timely payments of profit and/or principal payment on the maturity date. This may then lead to a default in the payment and/or profit and ultimately, affect the NAV per unit of the Fund. To mitigate this risk, the Manager will ascertain the creditworthiness of the financial institutions/counterparties of the Islamic money market instruments, Islamic deposits and negotiable instruments of Islamic negotiable instruments through a rigorous and disciplined credit research and analysis prior to its investments.
Single issuer risk	The Fund may invest a greater portion of its assets in a single issuer, and as such, the Fund is susceptible to any adverse developments affecting the single issuer held in its portfolio. Any changes in the financial condition of the single issuer may cause fluctuations in the Fund's NAV. The Manager seeks to mitigate this risk by conducting fundamental research prior to its investments, where the Manager will conduct thorough analysis of the issuer's financial statements by assessing its potential earnings growth, cash flow sustainability, debt manageability as well as historical financial performance.
Shariah status Reclassification risk	This risk refers to the risk of a possibility that the currently held Islamic fixed income instruments or Islamic money market instruments or Islamic deposits or Investment Account or Islamic collective investment schemes invested by the Fund may be declared as Shariah non-compliant by relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such fixed income instruments or money market instruments or deposits or conventional investment account or collective investment schemes.

INVESTORS SHOULD TAKE NOTE THAT THE ABOVE LIST OF RISKS MAY NOT BE EXHAUSTIVE AND IF NECESSARY, THEY SHOULD CONSULT THEIR ADVISER(S) FOR A BETTER UNDERSTANDING OF THE RISKS.

FEES & CHARGES

7. What are the fees and charges involved?

There are fees and charges involved and investors are advised to consider them before investing in the Fund.

The following table describes the charges that you may **directly** incur when you buy or redeem units:

Sales charge¹	Up to 4% of NAV per unit.
Redemption charge¹	No redemption charge is imposed upon redemption of units.
Switching fee¹	There is no switching fee imposed on switching of units.
Transfer fee¹	No transfer fee imposed on the transfer of units to a transferee.

The following table describes the fees that you may **indirectly** incur when you invest in the Fund:

Annual management fee¹	Up to 1.50% per annum of the NAV of the Fund calculated on a daily basis.
Annual trustee fee¹	0.08% per annum of the NAV of the Fund calculated on a daily basis, subject to a minimum of RM18,000 per annum (excluding foreign custodian fee and charges).

Note:

¹ The fees and charges stated are subject to any applicable taxes and/or duties and at such rate as may be imposed by the government from time to time. The Manager/Trustee (where applicable) shall have the right to charge and recover from the Fund any applicable taxes and/or duties now or hereafter imposed by law or required to be paid in connection with the products or services provided by the Manager/Trustee (where applicable).

VALUATIONS AND EXITING FROM INVESTMENT

8. How often are valuations available?

The NAV per unit of the Fund is determined on each Business Day¹. The daily NAV per unit of the Fund can be obtained from the Manager's website at www.hlam.com.my or our branch offices. Alternatively, you may contact the Customer Experience personnel at 03-2081 8600 ext 18611/18612 for the NAV per unit.

9. How can I exit from this investment and what are the risks and costs involved?

Cooling-off right

The cooling-off right allows investors an opportunity to reverse an investment decision, which could have been unduly influenced by certain external elements or factors.

The cooling-off period for the Fund is six (6) Business Days¹ commencing from the date the Manager receives the application for purchase of units.

A cooling-off right is only given to individual investors, who are investing in any of the Manager's fund(s) for the first time. However, the following persons and/or institutions are not entitled to the cooling-off right (as stipulated under the Guidelines on Unit Trust Funds issued by the Securities Commission Malaysia):-

- A staff of the Manager; and
- Persons registered with a body approved by the Securities Commission Malaysia to deal in unit trusts.

The refund for every unit held by the investor pursuant to the exercise of the cooling-off right shall be the sum of:-

- If the original price of a unit is higher than the price of a unit at the point of exercise of the cooling-off right ("market price"), the market price at the point of cooling-off; or
- If the market price is higher than the original price, the original price at the point of cooling-off; and
- the sales charge per unit originally imposed on the day the units were purchased.

Payment will be made to the investor within seven (7) Business Days¹. For investments made through cheque, the payment for the cooling-off will only be made to the investor after the cheque has been cleared.

Redemption of Units

- No redemption charge is imposed upon redemption of units.
- Minimum redemption of units is 1,000 units.
- No restriction on the frequency for redemption.
- Cut-off time for redemption requests is 11.00 a.m. on every Business Day¹.
- For partial redemption, you must maintain a minimum balance of 1,000 units in the Fund. Otherwise, the Manager will automatically effect a full redemption and inform the unit holder thereafter.
- Payment will be made to you within seven (7) Business Days¹.
- Payment can be made either via cheque, telegraphic transfer to Hong Leong Bank Berhad or participating banks' GIRO account.

Transfer of Units

- Transfer of units is allowed for this Fund either fully or partially. The minimum transfer is 1,000 units.

Switching of Units

- Switching of units is allowed for this Fund. The minimum amount of units switch to other fund(s) is 1,000 units.

FUND PERFORMANCE

10. Information on Fund Performance

(a) Average total return for the following periods ended 31 October 2022

	1-year	3-year	5-year	10-year	Since launch [#]
HLIIMF (%)	0.22	1.03	1.86	2.65	3.05
Malayan Banking Berhad 1-Month GIA Rate (%)	1.21	1.30	2.04	2.94	3.12

[#]The figure shown is for the period since launch of the Fund (26 April 2007)

(b) Annual total return for the financial years/period ended 31 October

	2022	2021	2020	2019	2018	2017	2016	2015	2014	2013
HLIIMF (%)	0.22	-2.24	5.20	2.81	3.14	2.80	3.45	3.12	2.47	2.96
Malayan Banking Berhad 1-Month GIA Rate (%)	1.21	1.00	1.63	2.80	3.18	3.39	4.01	3.30	2.85	2.78
