3.2 Investment Objective

The Fund aims to provide medium- to long-term capital growth by investing in a globally diversified portfolio of companies with a focus on ESG criteria in the investment process.

Any material change to the investment objective of the Fund would require Unit holders' approval.

3.3 Investment Policy, Strategy and Asset Allocation

Investment Policy and Principal Strategy

The Fund seeks to achieve its investment objective by investing a minimum of 70% and a maximum of 98% of its NAV in equities and equity-related securities globally in order to gain medium- to long-term capital growth. The balance of the Fund's NAV may be invested in money market instruments and deposits with financial institutions. The Fund does not incorporate ESG factors for money market instruments and deposits as the said instruments are used for liquidity purposes.

The Fund follows a rule-based strategy and will only invest in securities of companies with a strong ESG scoring. The Fund will incorporate the principles of ESG in security selection through MSCI ESG Ratings. MSCI is one of the world's largest ESG research providers. MSCI ESG Ratings is designed to measure a company's resilience medium- to long-term,

industry material ESG risks. Key ESG factors used in the rating process include among others climate change, usage of natural capital, pollution and waste management, environmental opportunities, human capital management, product liability, stakeholder opposition, social opportunities, corporate governance and corporate behaviour. MSCI ESG Ratings are derived by applying weighted averages on ESG factors based on MSCI's mapping framework and companies' scores are normalised by their industries. These assessments are not absolute but are explicitly intended to be interpreted relative to a company's industry peers. Through MSCI ESG Ratings, companies with poor performance on ESG factors would be excluded in the investable universe.

The fund will only invest in securities with an ESG rating that indicates that the company has a good track record of managing the most significant ESG risks and opportunities relative to industry peers. As such, the investable universe of the Fund comprises all equities with a minimum of BBB ESG rating by MSCI. BBB rating is the mid-point in MSCI's ESG rating scale. This threshold would exclude all companies that are lagging its industry based on its high exposure and failure to manage significant ESG risks.

The Manager has the discretion in selecting and managing the Fund's asset from the refined investment universe above. The Manager will review the ESG aspects of the Fund's portfolio periodically to ensure the investments of the Fund are consistent with the ESG considerations adopted by the Fund and the overall impact of the investments is consistent with any other sustainability considerations. If the Fund's investments become inconsistent with the ESG considerations of the Fund in the event of a downgrade in the ESG rating of a company below the minimum requirement, the Manager shall dispose of the said investments as soon as practicable.

The Fund emphasises on responsible investing and as such will ensure a minimum of 70% of its NAV is invested in accordance with ESG criteria.

The Fund's investments will be limited to markets where the regulatory authority is an ordinary or associate member of the International Organization of Securities Commissions ("IOSCO").

The Fund will adopt an active asset allocation and portfolio diversification to generate returns and manage market volatility.

The Fund will also have the flexibility to invest in ESG CIS with equities underlying which are compliant with the principles of the United Nations Global Compact or ESG that is in line with the Fund's investment objective. The Fund will rely on the ESG methodology of the said CIS. In the event the CIS in which the Fund invests shows persistent deterioration in its capacity or desire to meet the principles of United Nations Global Compact or ESG, the Manager will dispose the holdings in the CIS.

The Fund may use derivatives for currency hedging purposes only.

Temporary defensive strategy

The Manager may take temporary defensive positions in attempting to respond to certain conditions which include but are not limited to adverse market, economic and political conditions, insufficient funds to form an efficient portfolio and periods of high fund redemptions. In such situations, the Manager may reduce its equity exposure below the above stated range by reallocating its investments into lower-risk assets such as money market instruments and/or deposits.

3.4 General Risks of the Fund

Prospective investors should consider the following general risks of investing in the Fund in addition to the other information set out in this Prospectus:

- **Market risk**

Market risk refers to the potential losses that may arise from adverse changes in the market prices of the investments of the Fund. Prices of securities that the Fund has invested in may fluctuate in response to market developments (such as adverse changes in government regulations and policies, economic developments, investor sentiment, inflation, interest rates and exchange rates), which would then affect the Fund's NAV per Unit.

- **Interest rate risk**

This risk refers to the effect of interest rate changes on the prices of the Fund's investments in money market instruments such as NID. Generally, interest rate movements are inversely correlated with prices of NID, i.e. when interest rate rise prices of NID will fall and vice versa. The fluctuations in the prices of the NID may, in turn, have an impact on the Fund's NAV per Unit. This risk can be mitigated by holding the NID until their maturity due to lock in of price and yield.

- **Non-compliance risk**

This is the risk where the Manager does not comply with the provisions as set out in the Deed; or the laws/guidelines that govern the Fund; or its internal procedures and policies. The non-compliance could be due to several factors such as a result of human errors and oversight system failures or fraudulent acts by the Manager. Any non-compliance may adversely affect the Fund's NAV per Unit, especially in situations where the Manager is forced to sell the investments of the Fund at unfavorable prices to resolve the non-compliance. The Manager has imposed stringent internal compliance controls to mitigate this risk.

- **Loan financing risk**

The risk occurs when Unit holders take a loan/financing to finance their investment. The inherent risk of investing with borrowed money includes Unit holders being unable to service the loan repayments. In the event Units are used as collateral, Unit holders may be required to top-up their existing instalments if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan.

Please see unit trust loan financing risk disclosure statement in the account opening form (individual) section.

- **Inflation/Purchasing power risk**

This refers to the likelihood that a Unit holder's investments are not growing at a rate equal or greater than the inflation rate, thus resulting in the Unit holder's decreasing purchasing power.

3.5 Specific Risks of the Fund

In addition, there are also specific risks associated with the investment portfolio of the Fund. The specific risks include but are not limited to the following:

- **Counterparty risk**

The Fund's investments in money market instruments or placements of deposits with financial institutions are subject to the risk of the counterparty. Counterparty risk refers to the possibility that the financial institutions being unable to make timely payments of interest and/or principal payment on the maturity date. This may then lead to a default in the payment and/or interest and ultimately, affect the NAV per Unit of the Fund. To mitigate this risk, the Manager will ascertain the creditworthiness of the financial institutions through a rigorous and disciplined credit research and analysis prior to its investments.

- **Currency risk**

This risk is associated when the Fund has investments that are denominated in foreign currency. Any fluctuations in the currency exchange rates can affect the Fund's foreign investments when it is converted back to the Fund's base currency in RM, and subsequently affect the Fund's NAV per Unit. Investors should be aware that if the currencies in which the investments are denominated depreciate against the base currency, this will have an adverse effect on the NAV of the Fund in the base currency and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment. This risk may be mitigated through investing in a wide range of foreign currency denominated assets, thus reducing the risk of single currency exposure.

Alternatively, hedging may be applied to mitigate the currency risk, where necessary. While currency hedging has the potential to mitigate adverse currency fluctuations, any potential gains from currency appreciation will be capped. Therefore Unit holders will not benefit from any currency appreciation.

- **Country risk**

The foreign investments made by the Fund may be affected by changes in the economic, social and/or political conditions of the countries in which the investments are made. These changes may in turn, influence the growth and development of businesses and have an adverse impact on market sentiment. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall. However, this risk may be mitigated by conducting thorough research on the respective markets, their economies, companies, politics and social conditions as well as minimising or omitting investments in such markets.

The Manager will ensure all necessary licenses/permits for investments are applied for in countries that require such licenses/permits. The Manager will seek to invest in other accessible markets if the Manager is unable to obtain the necessary licenses/permits in those countries, or that such licenses/permits to invest in are revoked or not renewed.

- **Emerging markets risk**

This risk is associated with the Fund's investment in emerging markets. Emerging markets such as China, Indonesia, Thailand, Korea, India, Philippines and Vietnam are still at a relatively early stage of development and are not well established. Investments in securities of these markets would generally entail a higher risk than investments in securities of developed markets. This is because investments in emerging markets are more susceptible to the risk that the government may discriminately impose or fail to enforce the laws, regulations, policies or contracts governing an investment. The effect of such changes can have an adverse impact on the Fund's NAV per Unit and affect the Unit holder's capital and returns. To mitigate this risk, the Manager will monitor more closely the Fund's investments in such companies.

- **Sustainable investment risk**

Exclusion or disposal of securities of issuers that do not meet certain ESG criteria from the Fund's investment universe may cause the Fund to perform differently compared to similar indices and funds that do not have such a SRI policy or ESG component in their index methodology and that do not apply ESG screening criteria when selecting investments. The selection of assets may rely on a proprietary ESG scoring process (such as the index provider's) that relies partially or totally on third party data. Data

provided by third parties may be incomplete, inaccurate or unavailable and as a result, there is a risk that the Manager may incorrectly assess a security or issuer.

- **Sustainability risk**

An ESG event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of an investment, including but not limited to, risks stemming from climate change, natural resource depletion, environmental degradation, human rights abuses, bribery, corruption and social and employee matters.

- **Reinvestment risk**

The risk is more prevalent during times of declining interest rates when the Fund has received its principal and interest earned from a maturing deposits and money market instruments. As a result, the Fund has to reinvest the above proceeds in a new deposits or money market instruments offering a lower return than the previous deposits or money market instruments.

- **Collective Investment Scheme risk**

Investing in collective investment schemes may be more costly to the Fund than if the Fund had invested in the underlying investments directly as the Fund will indirectly be paying the fees and expenses of the collective investment schemes in addition to the Fund's direct fees and expenses. Investing in other collective investment schemes may be subject to the risk that (i) the valuations of the Fund may not reflect the true value of the underlying collective investment schemes at a specific time which could result in significant losses or inaccurate pricing for the Fund and/or (ii) the valuation may not be available as at the relevant valuation point for the Fund. The Fund's investments in collective investment schemes may subject the Fund to additional risks (such as risk associated with the investment manager of the collective investment scheme) than if the Fund would have invested directly in the underlying investments of the collective investment schemes. The risk associated with the investment manager of the collective investment schemes includes but are not limited to the risk of non-adherence to the investment objective, strategy and policies of the collective investment schemes, the risk of direct or indirect losses resulting from inadequate or failed operational and administrative processes and systems of the investment manager of the collective investment schemes, and the risk that the collective investment schemes may underperform due to poor investment decisions by the investment manager of the collective investment schemes as well as poor market conditions.

- **Liquidity risk**

Liquidity risk comprises two broad risk types; Market Liquidity Risk and Funding Liquidity Risk. Market Liquidity Risk is defined as the ease with which a security can be sold at or near its fair value depending on the trading volume of that security in

the market. If the Fund holds a large portfolio of securities that are less liquid, the securities may have to be sold at unfavourable prices and/or withdraw deposits placed with financial institutions prior to maturity which would expose the Fund to a higher degree of market liquidity risk. As such any premature withdrawal of deposits where interest income may be forfeited or forced sale of the Fund's investment to meet any shortfall will have adverse impact on the Fund's NAV per Unit.

Funding Liquidity Risk is defined as the risk that the Fund will not be able to meet efficiently both the expected and unexpected current and future cash outflow. The risk primarily involves the Fund's inability to meet redemption requests without major distortion to the portfolio allocation.

To mitigate this risk, the Manager will employ prudent liquidity management such as cash flow and redemption monitoring to ensure that the Fund maintains reasonable levels of liquidity to meet any redemption request supplemented by a temporary defensive strategy should adverse conditions prevail. The Manager will apply Liquidity Risk Management tools inclusive of liquidity Stress Test to assess the Fund's viability to meet expected and unexpected redemptions under adverse scenarios.

The Manager in consultation with the Fund's Trustee may suspend dealing in Units under exceptional circumstances where there is sufficient reason to do so having regard to the interests of the Unit holders in an effort to further curtail the liquidity risk experienced by the Fund.

- **Hedging risk**

The Manager has the flexibility to hedge particularly the foreign currency exposure at the RM class level by using derivatives. Foreign currency hedging has the potential to mitigate adverse foreign currency fluctuations but may not completely eliminate all currency risk. Hedging involves costs which reduce investment performance of the Fund.

<p>INVESTORS SHOULD TAKE NOTE THAT THE ABOVE LIST OF RISKS MAY NOT BE EXHAUSTIVE AND IF NECESSARY, THEY SHOULD CONSULT THEIR ADVISER(S) FOR A BETTER UNDERSTANDING OF THE RISKS.</p>

3.6 Risk Management Strategies

The risk management strategies undertaken by the Manager include but are not limited to the following:

- Adhering to the Fund's investment objective, investment strategies and investment limit and restrictions as stated in the Prospectus, Deed and/or Guidelines;
- Monitoring and evaluating the market and economic conditions of the global markets;
- Determining and monitoring effective diversification of securities across sectors and companies;

- Constant monitoring of relevant markets and effective diversification of securities across sectors and companies;
- Practice prudent liquidity management to ensure that the Fund maintains reasonable levels of liquidity to meet any redemptions request;
- Regular review of the Fund's performance; and
- Escalating and reporting investment matters to the Investment Committee.

3.7 Distribution Policy*

The Fund intends to provide Unit holders with medium- to long-term capital growth. As such, income distributions will be incidental to overall capital growth objective and all income returns from investments will be reinvested as additional Units. The Fund may also declare distribution in the form of additional Units to its Unit holders.

* Income distributions (if any) are not guaranteed. Distribution of income will only be made from realised gains or realised income derived from the investment of the Fund.

3.8 Performance Benchmark

The performance benchmark of the Fund is MSCI ACWI ESG Universal Index. Bloomberg ticker for the fund – MXWDESU.

Information on the MSCI ACWI ESG Universal Index is available from www.msci.com on a subscription basis or from the Manager upon request. The performance of the Fund against the benchmark is published in the Manager's monthly fund performance review publication and is available from the Manager's website at www.hlam.com.my.

3.9 Permitted Investments

The Fund may invest in any of the following investment, including but not limited to:

- Listed securities traded in or under the rules of an Eligible Market;

- Money market instruments and deposits with licensed financial institutions;
- Derivatives for currency risk hedging purposes only;
- Units/shares of collective investment scheme; and
- Any other kind of investment(s), which are in line with the objective of the Fund, as may be agreed upon by the Trustee and Manager from time to time.

3.10 Investment Limits and Restrictions of the Fund

The Fund shall be subject to the following investment limits and restrictions:

- a) The value of the Fund's investments in ordinary shares issued by any single issuer must not exceed 10% of the Fund's NAV;
- b) The value of the Fund's investment in transferable securities and money market instruments issued by any single issuer must not exceed 15% of the Fund's NAV;

- j) The value of the Fund's investments in transferable securities and money market instruments issued by any group of companies must not exceed 20% of the Fund's NAV; and
- k) The value of the Fund's investments in unlisted securities must not exceed 10% of the Fund's NAV. However, this exposure limit does not apply to "unlisted securities" that are:
 - Equities not listed or quoted on a stock exchange but have been approved by the relevant regulatory authority for such listing and quotation, and are offered directly to the Fund by the issuer; and
 - Debentures traded on an organized OTC market.

The above investment limits and restriction must be complied with at all times based on the most up-to-date value of the Fund and the value of the investments. However, under the Guidelines, a 5% allowance in excess of any limit or restriction is permitted where the limit or restriction is breached through the appreciation or depreciation of the Fund's NAV (whether as a result of an appreciation or depreciation in value of the investments or as a result of redemption of Units or payment made out of the Fund).

The Manager should not make any further acquisition to which the relevant limit is breached and should within reasonable period of not more than three (3) months from the date of the breach, take all necessary steps and actions to rectify the breach.

Such limits and restrictions, however, do not apply to securities that are issued or guaranteed by the Malaysian government or Bank Negara Malaysia.

3.11 Cross Trades

The Manager may undertake cross trades, i.e. sale and purchase transactions between funds or portfolios under the management of the Manager where the:

- a) sale and purchase decision are in the best interest of both funds or portfolios;
- b) transactions are executed through a dealer or a financial institution on an arm's length and fair value basis;
- c) reason for such transactions is documented before execution of the trades; and
- d) cross trades are identified to both funds or portfolios in their respective periodic transaction report or statement.

3.12 Investor Profile

4. FEES, CHARGES AND EXPENSES

4.1 Charges Directly Incurred On Sale and Redemption of Units

4.1.1 Sales Charge[^]

A sales charge is a front-end fee incurred by a Unit holder when the Unit holder purchases Units of the Fund. The Manager uses the sales charge to pay marketing, advertising and distribution expenses of the Fund. The Manager imposes a sales charge of up to 6.00% of the Fund's NAV per Unit. Sales charge is rounded to the nearest two (2) decimal places.

Illustration on how sales charge is calculated:

Assuming an investor makes an investment of RM10,000 on 15 November 2021 and that the NAV per Unit for the Fund at the end of the Business Day on 15 November 2021 is RM1.0000. If the sales charge is 6.00%, then the computation of the sales charge is as follows:

$$\begin{aligned}\text{Sales charge} &= \text{Sales charge} \times \text{amount invested} \\ &= 6.00\% \times \text{RM}10,000 \\ &= \text{RM}600\end{aligned}$$

4.1.2 Redemption Charge[^]

A redemption charge may be incurred by a Unit holder when the Unit holder redeems Units in the Fund. A redemption charge (if any) is levied upon the redemption proceeds and rounded to the nearest two (2) decimal places.

There is NO redemption charge imposed by the Manager for redemption of Units for this Fund.

Illustration on how redemption charge is calculated:

Assuming an investor wants to redeem 20,000 Units of his investment in HLGESGF, and the NAV per Unit for the Fund at the end of the Business Day on 15 November 2021 is RM1.0000. Since there is no redemption charge imposed by the Manager for the Fund, then the computation of the redemption charge is as follows:

Redemption proceeds	=	Units redeemed x NAV per Unit
	=	20,000 Units x RM1.0000
	=	RM20,000
Redemption charge	=	Redemption charge x redemption proceeds
	=	0% x RM20,000
	=	RM0.00
Net redemption proceeds	=	RM20,000 – RM0.00
	=	RM20,000

4.2 Fees Indirectly Incurred On Sale and Redemption of Units

4.2.1 Annual Management Fee[^]

The annual management fee is up to 2.00% per annum of the Fund's NAV calculated and accrued on a daily basis before deducting the Manager's fee and Trustee's fee for that day.

Illustration on how annual management fee is calculated:

Assuming the daily NAV at the valuation point for one particular valuation day is RM90,000,000, then the management fee for that particular valuation day is calculated as below:-

$$\frac{\text{RM90,000,000} \times 2.00\%}{365 \text{ days}^*} = \text{RM4,931.51 (daily)}$$

Therefore, total management fee for that particular valuation day will be:

$$= \text{RM4,931.51}$$

^{*} Note: In the event of a leap year, the annual management fee will be divided by 366 days.

4.2.2 Annual Trustee Fee[^]

The annual trustee fee is calculated and accrued on a daily basis based on the NAV of the Fund at the rate of up to 0.05% per annum of the Fund's NAV, subject to a minimum of RM15,000 per annum (excluding foreign custodian fees and charges).

Illustration on how annual trustee fee is calculated:

Assuming the daily NAV at the valuation point for one particular valuation day is RM90,000,000, then the trustee fee for that particular valuation day is calculated as below:-

$$\frac{\text{RM90,000,000} \times 0.05\%}{365 \text{ days}^*} = \text{RM123.30 (daily)}$$

Therefore, total trustee fee for that particular valuation day will be:

$$= \text{RM123.30}$$

* Note: In the event of a leap year, the annual trustee fee will be divided by 366 days.

4.2.3 Switching Fee[^]

There is no switching fee imposed on switching of funds.

4.2.4 Transfer Fee[^]

A transfer fee may be imposed on Unit holders who transfer, either fully or partially, the Units registered in their names to other persons. However, the Manager has waived the transfer fee for this Fund. Please refer to section 5.8 for further details on transfer of Units.

4.3 Fund Expenses[^]

There are other fees involved in the administration of the Fund. The other fund expenses are custodian fee (for funds with foreign investments) (if any), brokerage fee (if any), the Auditor's fees and other relevant professional fees such as validation and regulatory reporting on common reporting standard ("CRS"), foreign account tax compliance act ("FATCA"), distribution of statements of investment, interim and annual reports, tax vouchers, distribution warrants and other notices to Unit holders as well as expenses that are directly related and necessary to the business of the Fund as set out in the Deed. The fund expenses shall be paid out of the Fund.

4.4 Rebates and Soft Commissions

The Manager, fund manager, Trustee or Trustee's delegate will not retain any rebate from, or otherwise share in any commission with, any broker/dealer in consideration for directing dealings in the investments of the Fund. Note:

^ All fees and charges and/or sum set out in this Prospectus payable to the Manager/Trustee are subject to any applicable taxes and/or duties and at such rate as may be imposed by the government from time to time. The Manager/Trustee (where applicable) shall have the right to charge and recover from the Fund any applicable taxes and/or duties now or hereafter imposed by law or required to be paid in connection with the products or services provided by the Manager/Trustee (where applicable).

THERE ARE FEES AND CHARGES INVOLVED AND INVESTORS ARE ADVISED TO CONSIDER THE FEES AND CHARGES BEFORE INVESTING IN THE FUND.

5.2 Fund Valuation and Publication of Prices

The NAV per Unit is quoted on a Forward Price basis and can be obtained via online portal of The Star and/or the Manager's website at www.hlam.com.my.

The valuation of the Fund is conducted on each Business Day at the close of the Bursa Malaysia. However, for this Fund with investments in foreign markets with the underlying traded in the global markets, due to the time zone differences in these markets, the valuation point can only be carried out after the close of all foreign markets but not later than 5.00 p.m. on next Business Day in which the portfolio of the Fund is invested. Thus, the NAV per Unit of the Fund with foreign markets exposures will not be published on the next Business Day but instead will be published on the next following Business Day (i.e. the prices will be two Business Days old).

The following table illustrates the process flow of obtaining prices for the Fund.

Investors should note that the Manager does not accept responsibility for any errors on the part of the publisher on the prices published daily in various major newspapers (if any), or for any non-publication of prices by such publisher and shall incur no liability in respect of any action taken or loss suffered by investors in reliance upon such publications.

5.3 Pricing Policy

The Manager adopts a Single Pricing policy to price Units in relation to the purchase and redemption of Units. Hence, the purchase and redemption of Units will be carried out at a single price (i.e. NAV per Unit). The sales charge and redemption charge (if any) will be calculated separately based on your investment or redemption amount.

5.4 Unit Pricing

The Selling Price and Redemption Price of the Fund is calculated based on the NAV per Unit at the next valuation point after the application to purchase or redeem Units is received by the Manager, i.e. Forward Price.

Determination of the NAV per Unit

The NAV per Unit of the Fund is determined on each Business Day by dividing the value of the Fund's assets less its liabilities, (i.e. NAV), by the number of UIC at the same valuation point and rounded to 4 decimal places.

$$\text{NAV per Unit} = \frac{\text{Assets} - \text{Liabilities}}{\text{UIC}}$$

Illustration : Computation on NAV per Unit

The following illustration is based on the assumption that the Fund invests in equities, fixed income securities, money market instruments, deposits and the balance are in the form of other assets. It is also assumed that the UIC are 100,000,000 Units.

Figures and examples are meant for illustration purposes only.

Assets	RM
Equities	90,000,000
Fixed income securities, money market instruments and deposits	8,000,000
Other assets	5,000,000

	103,000,000
<i>Less : Liabilities</i>	<i>(3,000,000)</i>

NAV	100,000.000

$$\begin{aligned} \text{NAV per Unit} &= \text{NAV/UIC} \\ &= \frac{100,000,000}{100,000,000} \\ &= \text{RM1.0000 (rounded to 4 decimal places)} \end{aligned}$$

5.5 Purchase of Units

(a) Calculation on sales charge and Units

The Selling Price of the Fund is calculated based on the NAV per Unit at the next valuation point after the application to purchase Units is received by the Manager on a Business Day, i.e. Forward Price. The sales charge levied upon the purchase of Units by Unit holders is up to 6.00% of the Fund's NAV per unit.

Illustration: Calculation on sales charge and Units

Assuming the NAV per Unit at the end of the Business Day of 15 November 2021 is RM1.0000 and the sales charge is 6%, when an investor makes an investment of RM10,000 in HLGESGF, then the total amount to be paid by an investor is illustrated as follows:

Investment amount	=	RM10,000.00
Sales charge	=	Sales charge rate x amount invested
	=	6% x RM10,000.00
	=	RM600.00
Total amount to be paid by investor	=	Amount invested + sales charge
	=	RM10,000.00 + RM600.00
	=	RM10,600.00

Therefore, the number of Units credited to the above investor's investment account are (expressed in 2 decimal places):

$$\frac{\text{Amount invested}}{\text{NAV per Unit}} = \frac{\text{RM10,000.00}}{\text{RM1.0000}} = 10,000.00 \text{ Units}$$

(b) Minimum initial and additional investment

The minimum initial investment amount is RM1,000 or such other lower amount as the Manager may in its sole discretion allow. The minimum additional investment amount is RM100 or such other amount as the Manager may in its sole discretion allow.

There is no restriction on the frequency of investments into the Fund.

(c) How to purchase Units of the Fund?

When you make an investment, you must forward the following documents to the Manager's head office, its branches or to any of its sales agents or participating IUTAs before their respective cut-off times:

1. Completed application of account opening form (if the investor is a new Unit holder);
2. Completed investment application form;
3. Necessary remittance; and
4. Relevant supporting documents such as:-
 - a photocopy of your identity card (for an individual applicant) or certified true copy of the certificate of incorporation;
 - form 24 or return for the allotment of shares under section 78 of the Companies Act 2016;
 - form 44 or notice under section 46 of the Companies Act 2016;
 - form 49 or notice under section 58 of the Companies Act 2016;
 - memorandum and articles of association or constitution or by-laws, relevant resolutions (for corporate applicants) and any other relevant documents.

5.6 Redemption of Units

(a) Calculation and payment of redemption proceeds

The Redemption Price of the Fund is calculated based on the NAV per Unit at the next valuation point after the request for redemption of the Units is received by the Manager on a Business Day, i.e. Forward Price. The Manager does not impose a redemption charge on the redemption of Units for the Fund.

Illustration : Calculation on net redemption proceeds

Assuming an investor intends to redeem 10,000 Units from the Fund and that the NAV per Unit is RM1.0000, then the redemption proceeds that the investor will receive is as follows:

Redemption proceeds	=	Units redeemed x NAV per Unit	
	=	10,000 units x RM1.0000	
	=	RM10,000.00	
Redemption proceeds			RM 10,000.00
Less redemption charge			NIL

Net redemption proceeds to be paid to investor			RM 10,000.00

(b) Minimum redemption of Units

The minimum redemption of Units is 100 Units or such other lower amount as the Manager may in its sole discretion allow. The minimum requirement applies unless you are redeeming your entire investments holdings in the Fund.

Partial or full redemption can be made by completing a "Form of Request for Redemption" and by submitting it through the nearest Manager's head office, its branches or sales agents. The Unit holder shall not be entitled to partially redeem his holdings in the Fund if it reduces the remaining account balance of the Fund to an amount which is lower than the Fund's stipulated minimum account balance. In such circumstances, the Manager may in its sole discretion effect a full redemption on the entire account and inform the Unit holder thereafter. There is no restriction on the frequency of redemption of Units, subject to the minimum account balance. For further information, please refer to Section 5.9 – Minimum Account Balance.

In the case of where Units are in the names of more than one Unit holder, the mode of holding will be specified as "Joint Application" and redemption requests will have to be signed by all the joint holders. However, in the case where the mode of holdings is specified as "Either Applicant to Sign", it is not necessary for all joint holders to make the redemption request and any person who is registered as a joint holder in the Fund will be

allowed to make redemption requests for the Fund. In all cases, redemption proceeds will be paid only to the first-named joint holder in the Fund's register (unless the Unit holder specifies otherwise in the "Form of Request for Redemption"). Payment cannot be made to bank accounts in the name of third parties.

(c) Payment of Redemption Proceeds

Redemption proceeds will be paid within ten (10) calendar days upon receipt of the duly completed redemption request by the Manager.

(d) Suspension of Redemptions

Where the Trustee considers that it is not in the interests of the Unit holders to permit the assets of the Fund to be sold or that the assets cannot be liquidated at an appropriate price or on adequate terms, the Trustee shall suspend the redemption of Units and immediately call a Unit holders' meeting to decide on the next course of action.

The Trustee may also suspend the redemption of Units in exceptional circumstances when there is good and sufficient reason to do so having regard to the interests of the Unit holders.

All suspended requests for redemption shall be deemed to have been received on the first Business Day after the lifting of the suspension provided always that the Manager may permit a withdrawal of such requests at any time after the commencement of suspension and before the lifting of the suspension.

5.7 Fund Switching

Switching is a facility offered by the Manager to its existing Unit holders. This facility enables Unit holder to switch from units of one fund to units of other fund(s) managed by the Manager. Switching request is subject to a minimum amount of 1,000 Units or such other lower amount as the Manager may in its sole discretion allow.

- There is no switching fee imposed on any switching application within any of the fund(s) managed by the Manager.
- The Manager reserves the right to reject the switching request under the following conditions:
 - 1) If the net switched out proceeds does not meet the minimum initial investment amount or minimum additional investment amount of the fund that the Unit holder intends to switch into. In this event, Unit holder shall be given the option to either:-
 - a) remain invested in the fund that they were invested in; or
 - b) redeem the units in the fund that they intended to switch out.

- 2) If deemed disruptive to fund management or contrary to the best interest of the fund and/or the Unit holders.
- If following the switching, the account of the Fund which the Unit holder has switched out from does not maintain a minimum account balance of 1,000 Units or such other lower amount as the Manager may in its sole discretion allow, then full switching will be effected or the Manager reserves the right to reject the switching request. In the event this switching request is rejected, the Unit holder shall be given the option to either:
 - a) remain invested in the fund that they were invested in; or
 - b) redeem the entire holding of units in the fund that they intended to switch out.
 - Unit holders are not allowed to switch in or out of a new fund during the first three (3) months after the new fund's launch date.
 - Switching from an Islamic fund to a conventional fund is discourage especially for Muslim Unit holders.
 - Switching application should be made before the cut-off time of 4.00 p.m. on any Business Day except for funds with cut-off time of 11.00 a.m. When switching application is received after the cut-off time, the switching application shall be deemed to have been received on the next Business Day.
 - The Manager may at its absolute discretion waive or reduce the sales charge (if any) from time to time on the switching application. Alternatively, investor may negotiate with their preferred distributor for lower fees and charges, subject to the distributor's decision.
 - Switching from any unit trust fund to a wholesale fund or between wholesale funds are permissible if the investor meets the requirements of a Sophisticated Investor as defined herein.
 - The Manager reserves the right to vary the terms and conditions of the switching facility from time to time.

Please refer to the following table for a detailed switching illustration:-

Switching Illustration

Switch to Switch from	Intended Fund	
	FUND WITH 0% SALES CHARGE	FUND WITH SALES CHARGE
FUND WITH 0% SALES CHARGE	<ul style="list-style-type: none"> Reinvest into the intended fund(s) at net asset value per unit. 	<ul style="list-style-type: none"> Reinvest into the intended fund(s) at net asset value per unit and the difference of the sales charge between the current fund and the intended fund(s).
FUND WITH SALES CHARGE	<ul style="list-style-type: none"> Reinvest into the intended fund(s) at net asset value per unit. 	<ul style="list-style-type: none"> Reinvest into the intended fund(s) at net asset value per unit and the difference of the sales charge between the current fund and the intended fund(s). If a switch is made from a fund with higher sales charge into a fund with lower sales charge, NO sales charge will be imposed on the Unit holder.

Illustration : Calculation on switching of units

Assuming a Unit holder switches 20,000 units of fund A (which imposes 0% sales charge) at the NAV per Unit of RM1.0000 and wishes to invest into HLGESGF (which imposes a sales charge of 6%) at the NAV per Unit of RM1.0200:

The computation of the net switching out amount from fund A is as follows:

$$\begin{aligned}
 \text{Net switching out amount from fund A} &= \text{Switching units X NAV per Unit} \\
 &= 20,000 \times \text{RM1.0000} \\
 &= \text{RM20,000} \\
 \\
 \text{Difference in sales charge} &= \text{Sales charge of fund A} \\
 &\quad - \text{sales charge of HLGESGF} \\
 &= 6\% - 0\% \\
 &= 6\% \\
 \\
 \text{Amount invested in HLGESGF} &= \frac{\text{Net switching amount of Fund A}}{1 + \text{Difference in sales charge rate}} \\
 &= \frac{\text{RM20,000}}{(1 + 0.06)} \\
 &= \text{RM18,867.92}
 \end{aligned}$$

Therefore, the Units credited to the above Unit holder's investment account for HLGESGF are (expressed in 2 decimal places):

Amount invested in HLGESGF	=	RM18,867.92
NAV per Unit of HLGESGF		RM1.0200
	=	18,497.96 Units

5.8 Transfer of Units

A Unit holder (the transferor) may transfer Units held in the Fund to another person (the transferee), and satisfy the entry requirements of the Manager.

The transfer must be made in terms of Units and not in terms of RM. The minimum transfer amount is 1,000 Units or such other lower amount as the Manager may in its sole discretion allow. Where partial transfer of Units is made, the transferor must maintain and the transferee must meet the minimum holding* of Units. In the event the minimum holdings* of Units is not met by either the transferor or transferee, the Manager reserve the right to reject any transfer request.

To effect a transfer, both the transferor and transferee are required to complete a "Transfer Form". Additionally, if the transferee is a new investor, the "Account Opening Form" must be completed.

*Please refer to section 5.9 – Minimum Account Balance for more information.

5.9 Minimum Account balance

The minimum balance of Units that must be retained in a Unit holder's account is 1,000 Units or such other lower amount as the Manager may in its sole discretion allow. If the Units in the Unit holder's account fall below this minimum account balance due to transfer or switching, the Manager reserves the right to reject the transfer or switching request and will notify the Unit holder accordingly.

Where the Units in the Unit holder's account fall below the minimum account balance due to redemption, the Manager will effect a full redemption of Units in the account and inform the Unit holder thereafter.

5.10 How and Where Units Can Be Bought and Sold

For application or redemption of Units, the Unit holder is required to complete the relevant forms which are readily available from:

- Head office of HLAM;
- Branch offices of HLAM;
- Hong Leong Bank Berhad;
- Independent tied agents of HLAM, with registration cards issued by the FiMM; and/or
- Other approved IUTAs (as and when appointed by the Manager).

Please refer to Section 13 – Directory of Sales offices for further information.

5.11 Cooling-Off Right

The cooling-off right allows investors an opportunity to reverse an investment decision, which could have been unduly influenced by certain external elements or factors.

The Cooling-Off Period for the Fund is six (6) Business Days commencing from the date the Manager receives the application for purchase of Units.

A cooling-off right is only given to an individual investor who is investing in any of the Manager's funds for the first time. However, the following persons and/or institutions are not entitled to the cooling-off right (as stipulated under the Guidelines):-

- (a) A staff of the Manager; and
- (b) A person registered with a body approved by the SC to deal in unit trusts.

The refund for every Unit held by the investor pursuant to the exercise of a cooling-off right shall be the sum of:

- 1) the NAV per Unit on the day the Units were first purchased; and
- 2) the sales charge per Unit originally imposed on the day the Units were purchased.

Payment will be made to the investor within ten (10) calendar days. For investments made through cheque, the payment for the cooling-off will only be made to the investor after the cheque has been cleared.

Within the Cooling-Off Period, if the investor decides to withdraw his investment by exercising his cooling-off right, the total amount invested (i.e. Initial amount) will be refunded.

5.12 Distribution Mode

In the event the Fund declares any distributions, Unit holders will receive distribution in the form of additional Units. The distribution amount will be reinvested based on the Fund's NAV per Unit computed at the close of the reinvestment date (i.e. the first Business Day following the date of declaration for distributions). There is no charge imposed on distribution reinvestments. Should a public holiday fall on the distribution date, reinvestment will be made on the following Business Day.

If a Unit holder opts for the distribution to be paid out, the said income distribution proceed will be credited into their Malaysian bank account. In the absence of a registered bank account, the distribution (if any) will be re-invested.

5.13 Unclaimed Moneys

Any redemption proceeds payable to Unit holders which remain unclaimed after one year as is prescribed by the Unclaimed Moneys Act, 1965 will be surrendered to the Registrar of Unclaimed Moneys in accordance with the said Unclaimed Moneys Act, 1965.

5.14 Cut-Off Time for Purchase, Redemption, Switching and Cooling-Off Requests

The cut-off time for purchase, redemption, switching of Units, and cooling-off requests for the Fund shall be at 4.00 p.m. on every Business Day. Such requests that are received by the Manager after 4.00 p.m. will only be processed on the following Business Day. The Manager reserves the right to reject any application that is incomplete and/or not accompanied by the required documents.

Note: Our approved distributors may have an earlier cut-off time for purchase, redemption, switching of Units and cooling-off requests.

5.15 Incorrect Pricing

Subject to any relevant laws, if there is an error in the pricing of the NAV per Unit of the Fund, the Manager will take immediate remedial action to correct the error. Rectification shall, where necessary extend to the reimbursements of money as follows if the error is at or above the significant threshold of 0.5% of the NAV per Unit:

- (a) If there is an over pricing in relation to the purchase and creation of Units, the Fund shall reimburse the Unit holder;

- (b) If there is an over pricing in relation to the redemption of Units, the Manager shall reimburse the Fund;
- (c) If there is an under pricing in relation to the purchase and creation of Units, the Manager shall reimburse the Fund; and
- (d) If there is an under pricing in relation to the redemption of Units, the Fund shall reimburse the Unit holder or former Unit holder.

The Manager retains the discretion whether or not to reimburse if the error is below 0.5% of the NAV per Unit or where the total impact on an individual account is less than RM10.00 in absolute amount. This is because the reprocessing costs may be greater than the amount of the adjustment.

Investors are advised not to make a payment in cash to any individual agent when purchasing Units of the Fund.

Unit prices and distributions payable, if any, may go down as well as up.

6. THE MANAGEMENT COMPANY

6.1 The Manager

The Manager was incorporated as a private limited company under the Companies Act 1965 on 5 October 1994 under the name of HLB Unit Trust Management Sdn Bhd. TAXATION OF HONG LEONG GLOBAL ESG FUND AND UNIT HOLDERS

Dear Sirs,

This letter has been prepared for inclusion in the Prospectus ("hereinafter referred to as "the Prospectus") in connection with the offer of Units in Hong Leong Global ESG Fund ("the Fund").

The taxation of income for both the Fund and the Unit holders are subject to the provisions of the Malaysian Income Tax Act 1967 ("the Act"). The applicable provisions are contained in Section 61 of the Act, which deals specifically with the taxation of trust bodies in Malaysia.

TAXATION OF THE FUND

The Fund will be regarded as resident for Malaysian tax purposes since the Trustee of the Fund is resident in Malaysia.

(1) Foreign Investments

Income of the Fund in respect of overseas investment is exempt from Malaysian tax by virtue of Paragraph 28 of Schedule 6 of the Act and distributions from such income will be tax exempt in the hands of the Unit holders. Such income from foreign investments may

be subject to taxes or withholding taxes in the specific foreign country. However, any foreign tax suffered on the income in respect of overseas investment is not tax refundable to the Fund in Malaysia.

The foreign income exempted from Malaysian tax at the Fund level will also be exempted from tax upon distribution to the Unit holders.

(2) Domestic Investments

(i) General Taxation

Subject to certain exemptions, the income of the Fund consisting of dividends or interest income (other than interest income which is exempt from tax) and other investment income derived from or accruing in Malaysia, after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24 per cent.

Gains on disposal of investments in Malaysia by the Fund will not be subject to Malaysian income tax.

(ii) Dividends and Other Exempt Income

Effective 1 January 2014, all companies would adopt the single-tier system. Hence, dividends received would be exempted from tax and the deductibility of expenses incurred against such dividend income would be disregarded. There will no longer be any tax refund available for single-tier dividends received. Dividends received from companies under the single-tier system would be exempted.

The Fund may receive Malaysian dividends which are tax exempt. The exempt dividends may be received from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund will not be taxable on such exempt income.

Interest or discount income derived from the following investments is exempt from tax:

- (a) Securities or bonds issued or guaranteed by the government of Malaysia;
- (b) Debenture¹ other than convertible loan stocks, approved or authorized by, or lodged with, the Securities Commission Malaysia; and
- (c) Bon Simpanan Malaysia issued by Bank Negara Malaysia.

Interest income derived from the following investments is exempt from tax:

¹ Structured products approved by the Securities Commission Malaysia are deemed to be "debenture" under the Capital Markets and Services Act, 2007 and fall within the scope of exemption.

- (a) Interest income paid or credited by any bank or financial institution licensed under the Financial Services Act 2013 and Islamic Financial Services Act 2013;
- (b) Interest income paid or credited by any development financial institution regulated under the Development Financial Institutions Act 2002;
- (c) Bonds, other than convertible loan stocks, paid or credited by any company listed in Bursa Malaysia Securities Berhad ACE Market; and
- (d) Interest income paid or credited by Malaysia Building Society Berhad².

The interest income or discount income exempted from tax at the Fund's level will also be exempted from tax upon distribution to the Unit holders.

Exception: -

i. Wholesale money market fund

With effect from 1 January 2019, the exemption shall not apply to interest income paid or credited to a unit trust that is a wholesale money market fund.

ii. Retail money market fund

The Ministry of Finance has communicated to the Securities Commission that with effect from 1 January 2022, income tax exemption available to retail money market funds on interest earned from deposits will no longer apply to corporate investors. The amendment is proposed to be effected in the Act through Finance Bill 2021. It is also proposed that the interest income attributable to corporate investors will be taxed at the Fund level.

(3) Hedging Instruments

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into.

Generally, any gain / loss relating to the principal portion will be treated as capital gain / loss. Gains / losses relating to the income portion would normally be treated as revenue gains / losses. The gain / loss on revaluation will only be taxed or claimed upon realisation. Any gain / loss on foreign exchange is treated as capital gain / loss if it arises from the revaluation of the principal portion of the investment.

² Exemption granted through letters from Ministry of Finance Malaysia dated 11 June 2015 and 16 June 2015 and it is with effect year of assessment ("YA") 2015.

(4) Tax Deductible Expenses

Expenses wholly and exclusively incurred in the production of gross income are allowable as deductions under Section 33(1) of the Act. In addition, Section 63B of the Act provides for tax deduction in respect of managers' remuneration, expenses on maintenance of the register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postages based on a formula subject to a minimum of 10 per cent and a maximum of 25 per cent of the expenses.

Disposal time frame	RPGT rates (Companies incorporated in Malaysia and Trustee of a trust)
Within 3 years	30%
In the 4th year	20%
In the 5th year	15%
In the 6th year and subsequent years	10%

(6) Sales and Service Tax ("SST")

Effective from 1 September 2018, SST has been reintroduced to replace the Goods and Services Tax ("GST"). Both the Sales Tax Act 2018 and Services Tax Act 2018 have been gazetted on 28 August 2018. The rates for sales tax are nil, 5 per cent, 10 per cent or a specific rate whereas the rate for service tax is at 6 per cent.

Sales tax will be chargeable on taxable goods manufactured in or imported into Malaysia, unless specifically exempted by the Minister. Whereas, only specific taxable services provided by specific taxable persons will be subject to service tax. Sales tax and service tax are single stage taxes. As such, SST incurred would generally form an irrecoverable costs to the business.

In this connection, the Fund, being non-taxable person who acquire imported taxable services (if any) will need to declare its imported taxable services through the submission of prescribed declaration, i.e. Form SST-02A to the Royal Malaysian Customs Department (“RMCD”).

With effect from 1 January 2020, service tax on digital services was implemented at the rate of 6 per cent. Under the service tax on digital services, foreign service providers selling digital services to Malaysian consumers are required to register for and charge service tax. Digital services are defined as services which are delivered or subscribed over the internet or other electronic network, cannot be delivered without the use of IT and the delivery of the service is substantially automated.

Furthermore, the provision of digital services has also been prescribed as a taxable service when provided by a local service provider with effect from 1 January 2020. Hence, where the Fund obtains any of the prescribed digital services, those services may be subject to service tax at 6 percent.

TAXATION OF UNIT HOLDERS

Unit holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent of the distributions received from the Fund. The income distribution from the Fund will carry a tax credit in respect of the Malaysian tax paid by the Fund. Unit holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them. No additional withholding tax will be imposed on the income distribution from the Fund.

Non-resident Unit holders may also be subject to tax in their respective jurisdictions. Depending on the provisions of the relevant country’s tax legislation and any double tax treaty with Malaysia, the Malaysian tax suffered may be creditable against the relevant foreign tax.

4. Amendment to Section 3.3 - Investment Policy, Strategy and Asset Allocation

The information in relation to the “Investment Policy, Strategy and Asset Allocation” disclosed on pages 10 to 12 of the Prospectus dated 20 April 2022 is hereby deleted in its entirety and substituted with the following:

Investment Policy and Principal Strategy

The Fund seeks to achieve its investment objective by investing a minimum of 80% of its NAV in equities and equity-related securities globally in order to gain medium to long-term capital growth. The balance of the Fund’s NAV may be invested in money market instruments and deposits with financial institutions.

The Fund follows a rule-based strategy and will only invest in securities of companies with a strong ESG scoring. Our rule-based ESG strategy is an investment approach that incorporates environmental, social and governance (ESG) criteria into the investment process using predefined rules provided by MSCI Inc. This strategy aims to create portfolios or allocate assets based on companies ESG performance and sustainability practices. MSCI offers a range of ESG indices and tools that form the foundation for their ESG rule-based strategies. These strategies utilize MSCI’s ESG ratings, which assess companies ESG performance on a scale from AAA to CCC, as well as other ESG-related data and research. The rule-based ESG strategies provide investors with a systematic and transparent approach to integrating ESG considerations into their investment portfolios. By following predefined rules, these strategies aim to capture companies with strong ESG performance and align investments with sustainability goal.

The Fund will incorporate the principles of ESG in security selection through MSCI ESG Ratings. MSCI is one of the world’s largest ESG research providers. MSCI ESG Ratings is designed to measure a company’s resilience medium to long-term, industry material ESG risks. Key ESG factors used in the rating process include among others climate change, usage of natural capital, pollution and waste management, environmental opportunities, human capital management, product liability, stakeholder opposition, social opportunities, corporate governance and corporate behaviour. MSCI ESG Ratings are derived by applying weighted averages on ESG factors based on MSCI’s mapping framework and companies’ scores are normalised by their industries. These assessments are not absolute but are explicitly intended to be interpreted relative to a company’s industry peers. Through MSCI ESG Ratings, companies with poor performance on ESG factors would be excluded in the investable universe.

The Fund will only invest in securities with an ESG rating that indicates that the company has a good track record of managing the most significant ESG risks and opportunities relative to industry peers. As such, the investable universe of the Fund comprises all equities with a minimum of BBB ESG rating by MSCI. BBB rating is the mid-point in MSCI’s ESG rating scale. This threshold would exclude all companies that are lagging its industry based on its high exposure and failure to manage significant ESG risks. The Fund may receive warrants arising from holding shares of a company as part of the company’s capital raising exercise but will not directly buy warrants.

The other factors that can influence the strength of the ESG scoring are:

1. Innovation and Leadership: Companies that demonstrate innovation and leadership in addressing ESG challenges within their industry may receive higher ESG scores. This can include developing sustainable products or services, implementing innovative environmental practices, or setting industry standards for responsible governance and social impact.

This 1st Supplemental Prospectus is supplementary to and has to be read in conjunction with the Prospectus in relation to Hong Leong Global ESG Fund dated 20 April 2022.

2. Supply Chain Management: Companies with robust supply chain management practices, including responsible sourcing, supplier engagement, and oversight of environmental and social impacts throughout the supply chain, can receive stronger ESG scores. Effective management of supply chain risks, such as labour rights violations or environmental pollution, is also considered.
3. Risk Management: Effective risk management practices, particularly regarding ESG issues, can positively impact ESG scoring. Companies that proactively identify and mitigate ESG-related risks, such as climate change risks, supply chain disruptions, or labour controversies, are more likely to receive stronger ESG ratings.
4. Performance Trends: The assessment of ESG strength may take into account a company's performance trends over time. Companies that show improvement in their ESG practices and performance compared to their historical data or industry peers may receive higher scores, indicating a commitment to continuous progress in sustainability and responsible practices.
5. Regulatory and Legal Compliance: Adherence to applicable laws, regulations, and industry standards is an important aspect of ESG scoring. Companies that demonstrate strong compliance frameworks and practices, ensuring ethical behaviour, and avoiding legal controversies, are more likely to receive higher ESG scores.
6. Diversity and Inclusion: Increasingly, the assessment of ESG strength considers a company's commitment to diversity and inclusion. Companies that foster diverse and inclusive workplaces, promote gender equality, and demonstrate fair treatment of employees regardless of their backgrounds may receive higher ESG ratings.
7. Impact Measurement: Certain ESG assessments consider the measurable impact of a company's actions on environmental, social, and governance issues. Companies that can demonstrate quantifiable positive outcomes or reduction in negative impacts, such as carbon emissions reduction or community development initiatives, may receive higher ESG scores.

The Manager has the discretion in selecting and managing the Fund's asset allocation and stock selection from the refined investment universe above. The Manager will review the ESG aspects of the Fund's portfolio periodically to ensure the investments of the Fund are consistent with the ESG considerations (which include but not limited to, opportunities and risks stemming from climate change, natural resource depletion, environment degradation, human rights abuses, bribery, corruption, social and employee matters) adopted by the Fund and the overall impact of the investments is consistent with any other sustainability considerations. If the Fund's investments become inconsistent with the ESG considerations of the Fund in the event of a stock being excluded from the ESG indices, the Manager shall dispose of the said investments as soon as practicable, or during portfolio rebalancing in case of poor ESG performance. The Manager will review the Fund's holdings on an annual basis, supported by the information provided by MSCI, to ensure the underlying investment's compliance with the SRI fund's policies and strategies.

The Fund emphasises on responsible investing and as such will ensure a minimum of 80% of its NAV is invested in accordance with ESG criteria. The Fund will only invest in Eligible Markets. If the Fund has breached the minimum asset allocation of at least 2/3 of its NAV in investments that are subject to the above sustainable considerations, the Manager will rectify the breach within an appropriate timeframe not exceeding three (3) months from the date of the decision to dispose or breach unless otherwise specified in the Guidelines.

The Fund will adopt an active asset allocation and portfolio diversification to generate returns and manage market volatility.

This 1st Supplemental Prospectus is supplementary to and has to be read in conjunction with the Prospectus in relation to Hong Leong Global ESG Fund dated 20 April 2022.

The Fund will also have the flexibility to invest in ESG CIS with equities underlying which are compliant with the principles of the United Nations Global Compact or ESG that is in line with the Fund's investment objective. The Fund will rely on the ESG methodology of the said CIS, that may include using main index providers and/or proprietary framework for its ESG consideration. In the event the CIS in which the Fund invests in shows persistent deterioration in its capacity or desire to meet the principles of United Nations Global Compact or ESG, the Manager will dispose the holdings in the CIS. For avoidance of doubt, the Fund will invest in CIS that are qualified under the Guidelines on Sustainable and Responsible Investment Funds.

The Fund may employ OTC derivatives instruments such as forward contracts, profit-rate swaps or cross currency swaps amongst others, to manage, minimize or mitigate inherent foreign currency-denominated risks or interest rates risks associated with the Fund's investments. The use of derivatives is for currency hedging purposes only. For the purposes of the Fund's use of derivatives for hedging, the global exposure relating to derivative will be calculated using a commitment approach.

Commitment approach

The global exposure of the Fund to derivatives is calculated as the sum of the:

- absolute value of the exposure of each individual derivative not involved in netting or hedging arrangements;
- absolute value of the net exposure of each individual derivative after netting or hedging arrangement; and
- the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC derivatives.

Netting arrangements may be taken into account to reduce the Fund's exposure to derivatives. The Fund may net positions between bilateral or multilateral derivatives contracts that gives rise to an equivalent underlying obligation e.g. settlement date, currency pairs, etc. to minimize credit, settlement and liquidity risk.

As part of its derivatives hedging arrangements, it must:

- (a) not be aimed at generating excess returns on a standalone basis;
- (b) result in an overall verifiable reduction of the risk in the Fund;
- (c) offset the general and specific risks linked to the underlying constituent being hedged;
- (d) relate to the asset class being hedged;
- (e) be able to meet its hedging objectives in all market conditions; and
- (f) the global exposure of the derivatives position must not exceed the NAV of the Fund at all times.

The exposure to a counterparty of an OTC derivative must be measured based on the maximum potential loss that may be incurred by the Fund if the counterparty defaults and not on the basis of the notional value of the OTC derivative and the total exposure to a single counterparty is calculated by summing the exposure arising from all OTC derivative transactions entered into with the same counterparty.

The Fund will only invest in derivatives that are issued by counterparties with a strong credit rating. A Malaysian counterparty must have a credit rating of at least "AA3" by RAM or its equivalent rating by MARC. Whereas, a foreign counterparty must have a credit rating of at least "A" as rated by S&P or its equivalent rating by another recognised global rating agency. The

This 1st Supplemental Prospectus is supplementary to and has to be read in conjunction with the Prospectus in relation to Hong Leong Global ESG Fund dated 20 April 2022.

Manager will unwind the affected invested derivative instruments or hold the derivatives instrument to maturity if its period to maturity is less than six (6) months if the counterparty is downgraded below the abovementioned credit ratings.

Temporary defensive strategy

The Manager may take temporary defensive positions in attempting to respond to certain conditions which include but are not limited to adverse market, economic and political conditions, insufficient funds to form an efficient portfolio and periods of high fund redemptions. In such situations, the Manager may reduce its equity exposure below the above stated range by reallocating its investments into lower-risk assets such as money market instruments and/or deposits whilst maintaining at least 2/3 of its NAV in instruments that are subject to sustainability considerations at all times.

5. Amendment to Section 3.4 - General Risks of the Fund

The information in relation to the “Liquidity risk” and “Suspension of repurchase request risk” are hereby added into the general risks section of the Prospectus dated 20 April 2022:

• **Liquidity risk**

Liquidity risk comprises two broad risk types; Market Liquidity Risk and Funding Liquidity Risk. Market Liquidity Risk is defined as the ease with which a security can be sold at or near its fair value depending on the trading volume of that security in the market. If the Fund holds a large portfolio of securities that are less liquid, the securities may have to be sold at unfavourable prices and/or withdraw deposits placed with financial institutions prior to maturity which would expose the Fund to a higher degree of market liquidity risk. As such any premature withdrawal of deposits where interest income may be forfeited or forced sale of the Fund’s investment to meet any shortfall will have adverse impact on the Fund’s NAV per Unit and subsequently the value of Unit holders’ investments in the Fund. Funding Liquidity Risk is defined as the risk that the Fund will not be able to meet efficiently both the expected and unexpected current and future cash outflow. The risk primarily involves the Fund’s inability to meet redemption requests without major distortion to the portfolio allocation.

To mitigate this risk, the Manager will employ prudent liquidity management such as cash flow and redemption monitoring to ensure that the Fund maintains reasonable levels of liquidity to meet any redemption request supplemented by a temporary defensive strategy should adverse conditions prevail. The Manager will apply Liquidity Risk Management tools inclusive of liquidity Stress Test to assess the Fund’s viability to meet expected and unexpected redemptions under adverse scenarios. Additionally, the Manager will employ liquidity risk scoring. The liquidity risk scoring is part of the calculation of the risk profile of the Fund. It measures the liquidity profile of the investments and is able to trigger the Manager on the investments that have a worsened liquidity positions.

The Manager may, in consultation with the Trustee, suspend dealing in Units under exceptional circumstances where there is sufficient reason to do so having regard to the interests of the Unit holders in an effort to further curtail the liquidity risk experienced by the Fund. Exceptional circumstances can be considered where the market value or fair value of a material portion of the Fund’s assets cannot be determined.

This 1st Supplemental Prospectus is supplementary to and has to be read in conjunction with the Prospectus in relation to Hong Leong Global ESG Fund dated 20 April 2022.

- **Suspension of repurchase request risk**

Having considered the best interest of Unit holders, the repurchase requests by the Unit holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined. In such case, Unit holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time than original timeline. Hence, their investments will continue to be subject to the risk inherent to the Fund.

6. Amendment to Section 3.5 - Specific Risks of the Fund

The information in relation to the "Liquidity risk" disclosed on pages 15 to 16 of the Prospectus dated 20 April 2022 is hereby deleted in its entirety and substituted with the following:

- **Warrant risk**

Warrants have a limited life, as denoted by the expiry date of each issue. After this date, warrants can no longer be traded or exercised. Hence, the warrants are worthless after their expiry date. It must also be noted that warrants experience time decay (erosion of their time value) throughout their life, and that the rate of this decay accelerates as warrants near expiry.

7. Amendment to Section 3.6 - Risk Management Strategies

The information in relation to the "Risk Management Strategies" disclosed on pages 16 to 17 of the Prospectus dated 20 April 2022 is hereby deleted in its entirety and substituted with the following:

The risk management strategies undertaken by the Manager include but are not limited to the following:

- Adhering to the Fund's investment objective, investment strategies and investment limit and restrictions as stated in the Prospectus, Deed and/or Guidelines;
- Monitoring and evaluating the market and economic conditions of the global markets;
- Determining and monitoring effective diversification of securities across sectors and companies;
- Constant monitoring of relevant markets and effective diversification of securities across sectors and companies;
- Prudent liquidity management refers to the Manager's adherence to the mandate/asset allocation of the Fund whereby the Fund will hold sufficient cash for liquidity purposes and/or hold assets that are easily liquidated for meeting redemption requests. Prudent liquidity management includes continuous monitoring and regular reporting on among others liquidity stress testing, redemption shocks, investor concentration profiling and liquid assets ratio within the internal investment risk framework;
(Note: Please refer to Liquidity Risk under section 3.4 above for more details)
- Regular review of the Fund's performance; and
- Escalating and reporting investment matters to the Investment Committee.

This 1st Supplemental Prospectus is supplementary to and has to be read in conjunction with the Prospectus in relation to Hong Leong Global ESG Fund dated 20 April 2022.

8. Amendment to Section 3.9 - Permitted Investments

The information in relation to the “Permitted Investments” disclosed on page 17 of the Prospectus dated 20 April 2022 is hereby deleted in its entirety and substituted with the following:

The Fund may invest in any of the following investment, including but not limited to:

- Listed securities traded in or under the rules of an Eligible Market;
- Unlisted securities including securities that are not listed or quoted on an exchange of an Eligible Market but have been approved by the relevant regulatory authority for such listing and quotation, and are offered directly to the Fund by the issuer;

- Derivatives for currency risk hedging purposes only;
- Units/shares of CIS; and

9. Amendment to Section 3.10 - Investment Limits and Restrictions of the Fund

The information in relation to the “Investment Limits and Restrictions of the Fund” disclosed on page 18 of the Prospectus dated 20 April 2022 is hereby deleted in its entirety and substituted with the following:
