Manager's Review and Report

I. FUND INFORMATION

Fund Name

Hong Leong Income Fund ("HLIF" or "the Fund")

Fund Category

Fixed Income

Fund Type

Income

Investment Objective

The Fund aims to provide investors with a low risk investment portfolio offering a regular stream of income*.

Duration of the Fund and its termination date, where applicable

Not Applicable

Benchmark

Malayan Banking Berhad 12 Months Fixed Deposit Rate

Distribution Policy

The Fund intends to provide Unit holders with regular income. As such, income distributions will be on a monthly basis, subject to availability of income and the amount of income available for distribution may fluctuate from time to time.

Note:

* Income may be distributed in the form of cash and/or additional Units.

II. FUND PERFORMANCE

Chart 1: Performance of the Fund versus the benchmark

Hong Leong Income Fund MYR A

From 28/3/2019 to 29/2/2024

- Hong Leong Income Fund MYR A (HLIF MYR A) : 13.71
- Maybank 12 Months Fixed Deposit Rate : 12.82

Source: Lipper for Investment Management, in Malaysian Ringgit terms, ex-distribution, NAV Per Unit-to-NAV Per Unit basis with gross income (if any) from HLIF MYR A reinvested.

Hong Leong Income Fund MYR D

From 31/12/2021 to 29/2/2024

- Hong Leong Income Fund MYR D (HLIF MYR D) : 6.57
- Maybank 12 Months Fixed Deposit Rate : 5.82

Source: Lipper for Investment Management, in Malaysian Ringgit terms, ex-distribution, NAV Per Unit-to-NAV Per Unit basis with gross income (if any) from HLIF MYR D reinvested.

Past performance is not necessarily indicative of future performance and unit prices and investment returns may go down, as well as up.

Performance Review

This Annual Report covers the twelve-month financial year from 1 March 2023 to 29 February 2024.

For Hong Leong Income Fund MYR A, the Fund posted a return of 3.38% (based on NAV Per Unit-to-NAV Per Unit basis with gross income (if any) from the Fund reinvested) in the past twelve months while its benchmark the Malayan Banking Berhad 12 Months Fixed Deposit Rate registered a return of 3.06%. During the financial year under review, the Fund has distributed 12 times of income distributions to its Unit holders. Unit holders should note that income distributions have the effect of reducing the Net Asset Value (NAV) per unit of the Fund after distributions. Since launch on 28 March 2019, the Fund has registered a return of 13.71% compared to the benchmark's return of 12.82% while distributing a total gross income of 11.719 sen per unit (net income of 11.719 sen per unit).

For Hong Leong Income Fund MYR D, the Fund posted a return of 3.63% (based on NAV Per Unit-to-NAV Per Unit basis with gross income (if any) from the Fund reinvested) in the past twelve months while its benchmark the Malayan Banking Berhad 12 Months Fixed Deposit Rate has registered a return of 3.06%. During the financial year under review, the Fund has distributed 12 times of income distributions to its Unit holders. Unit holders should note that income distributions have the effect of reducing the NAV per unit of the Fund after distributions. Since 31 December 2021, the Fund has registered a return of 6.57% compared to the benchmark's return of 5.86% while distributing a total gross income of 5.904 sen per unit (net income of 5.904 sen per unit).

For a full description of the income distributions, cum-distributions and ex-distributions NAV per unit of the Fund, kindly refer to section entitled 'Performance Data' at page 52-59.

III. INVESTMENT PORTFOLIO

Chart 2: Asset Allocation - March 2023 to February 2024

Chart 3: Sector Allocation as at 29 February 2024

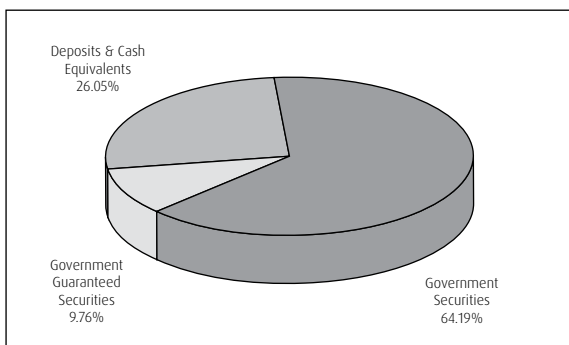

Chart 4: Portfolio Composition by Ratings as at 29 February 2024

Strategies employed by the Fund during the year under review

During the financial year under review, the Fund maintained its preference in government bonds as we see potential capital gains in a weaker economic growth going forward.

An explanation on the differences in portfolio composition

As at 29 February 2024, the Fund's exposure into fixed income securities stood at 74.0% (February 2023: 53.0%) of the Fund's NAV, while the balance was held in deposits. During the financial year under review, the Manager decreased cash while deploying into sovereign bonds as we saw better values in the bonds.

Operational review of the Fund

For the financial year under review, there were no significant changes in the state of affairs of the Fund or circumstances that would materially affect the interest of Unit holders up to the date of this Manager's report.

IV. MARKET REVIEW

During the financial year under review, in July 2023, the Federal Reserve (Fed) raised interest rate by another 25 basis points (bps) to 5.25%-5.50% as the Fed is committed to bringing inflation down to its 2% target. The United States (US) inflation rate remained steady at 3.7% in September 2023 (June 2023: 3.0%) amid weaker energy prices which offset slowing inflationary pressures in other categories. The core Consumer Price Index (CPI), which excludes volatile food and energy prices, fell to 4.1 the lowest reading since September 2021. During the financial year under review, US Treasuries (UST) were pressured lower, reflecting the anticipation of additional rate hikes by the Fed amid hawkish comments from the Fed. The possibility of the Fed keeping rates “higher for longer”, coupled with slightly stronger non-farm payroll data despite slower wage growth and higher unemployment rate, had a more negative impact on bonds. During the financial year under review, UST 2-Year yield increased 10 bps to 5.04% whilst UST 10-Year yield spiked 72 bps to 4.57%.

The 2-Year and 10-Year UST yields ended higher at 4.62% and 4.25% respectively in end-February (end-January: 4.21% and 3.91%) following stronger-than-expected consumer spending and Producer Price Index (PPI) in January, which lent support to the Fed’s narrative of “staying higher for longer”. The key signal from the latest Federal Open Market Committee (FOMC) meeting is that the Fed is worried about cutting interest rates too soon as inflation has yet to reach its targeted 2%. With sticky inflation numbers and strong jobs data, the market now expects circa 3 cuts (or 75 bps) in the second half of this year.

V. FUTURE PROSPECTS AND PROPOSED STRATEGIES

US consumer prices rose 0.3% in February (January: 0.3%; December: 0.2%), according to the Personal Consumption Expenditures (PCE) inflation measure, largely due to food prices which has risen 0.5% over the month. The International Monetary Fund (IMF) expects the US economy to expand by 2.1% in 2024, supported by a still favourable labour market (2022: +2.5%).

Malaysia's inflation in January 2024 was 1.5%, unchanged since November 2023, driven by slower increases in various sectors including food and beverages. Meanwhile, core inflation increased at a slower 1.8% as compared to 1.9% in December 2023. We expect the Malaysian economy to continue expanding at a moderate pace of 4.7% in 2024, in view of sustained domestic demand and recovery in exports. On that note, we expect Bank Negara Malaysia (BNM) to maintain Overnight Policy Rate (OPR) at 3.00% throughout 2024.

We continue to overweight on short to medium government bonds to manage volatility and seek opportunities to rebalance our portfolios.

VI. SOFT COMMISSIONS

The Manager may receive soft commissions from brokers/dealers in the form of goods and services such as research materials, data and quotation services incidental to investment management of the Fund and investment related publications. Such soft commissions received are utilised in the investment management of the Fund and are of demonstrable benefit to the Fund and Unit holders and there was no churning of trades.

During the financial year under review, the Fund has not received goods or services by way of soft commissions.

VII. SECURITIES LENDING OR REPURCHASE TRANSACTIONS

No securities lending or repurchase transactions have been carried out during the financial year under review.

VIII. CROSS TRADE TRANSACTIONS

No cross trade transactions have been carried out during the financial year under review.

STATEMENT BY THE MANAGER

I, Hoo See Kheng, as the Director of Hong Leong Asset Management Bhd, do hereby state that, in the opinion of the Manager, the financial statements set out on pages 16 to 51 are drawn up in accordance with the provision of the Deeds and give a true and fair view of the financial position of the Fund as at 29 February 2024 and of its financial performance, changes in net assets attributable to unit holders and cash flows for the financial year ended 29 February 2024 in accordance with the Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”).

For and on behalf of the Manager,
Hong Leong Asset Management Bhd
(Company No.: 199401033034 (318717-M))

TRUSTEE'S REPORT

TO THE UNIT HOLDERS OF HONG LEONG INCOME FUND ("Fund")

We have acted as Trustee of the Fund for the financial year ended 29 February 2024 and we hereby confirm to the best of our knowledge, after having made all reasonable enquiries, **Hong Leong Asset Management Bhd** has operated and managed the Fund during the year covered by these financial statements in accordance with the following:

1. Limitations imposed on the investment powers of the management company under the deed, securities laws and the Guidelines on Unit Trust Funds;
2. Valuation and pricing is carried out in accordance with the deed; and
3. Any creation and cancellation of units are carried out in accordance with the deed and any regulatory requirement.

We are of the opinion that the distributions of income by the Fund are appropriate and reflect the investment objective of the Fund.

For and on behalf of
CIMB Commerce Trustee Berhad

Datin Ezreen Eliza binti Zulkiplee
Chief Executive Officer

Kuala Lumpur, Malaysia

INDEPENDENT AUDITORS' REPORT

TO THE UNIT HOLDERS OF HONG LEONG INCOME FUND

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of Hong Leong Income Fund ("the Fund") give a true and fair view of the financial position of the Fund as at 29 February 2024 and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 29 February 2024, and the statement of comprehensive income, statement of changes in net assets attributable to unit holders and statement of cash flows for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 16 to 51.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards)("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information other than the financial statements and auditors' report thereon

The Manager of the Fund is responsible for the other information. The other information comprises Manager's Review and Report, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the financial statements

The Manager of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to terminate the Fund or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.

- (d) Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

OTHER MATTERS

This report is made solely to the unit holders of the Fund and for no other purpose. We do not assume responsibility to any other person for the content of this report.

Proceeds from creation of units	1,866,922,376	1,160,683,125
Payments for cancellation of units	(4,930,877,076)	(1,666,524,499)
Payments for distributions	(80,228,485)	(81,276,194)
Net cash used in financing activities	<u>(3,144,183,185)</u>	<u>(587,117,568)</u>
NET DECREASE IN CASH AND CASH EQUIVALENTS	(1,805,951,087)	(14,262,835)
CASH AND CASH EQUIVALENTS AT THE BEGINNING OF THE FINANCIAL YEAR	<u>2,253,881,775</u>	<u>2,268,144,610</u>
CASH AND CASH EQUIVALENTS AT THE END OF THE FINANCIAL YEAR	<u>447,930,688</u>	<u>2,253,881,775</u>

The accompanying notes to the financial statements form an integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 29 FEBRUARY 2024

1. THE FUND, THE MANAGER AND THEIR PRINCIPAL ACTIVITIES

Hong Leong Income Fund (“the Fund”) was constituted pursuant to the execution of a Deed dated 31 January 2019, First Supplemental Deed dated 25 May 2021, Second Supplemental Deed dated 9 September 2021 and Third Supplemental Deed dated 16 January 2023 (“the Deeds”), between the Manager, Hong Leong Asset Management Bhd and the Trustee, CIMB Commerce Trustee Berhad for the unit holders of the Fund.

The Fund aims to provide investors with a low risk investment portfolio offering a regular stream of income.

The Fund will invest a minimum of 50% of its net asset value in securities issued or guaranteed by the Government of Malaysia and a maximum of 50% of its net asset value in money market instruments and deposits. To provide a regular income, the Fund will invest in a portfolio of bonds, money market instruments and deposits for accrual income. The Fund commenced operations on 28 March 2019 and will continue its operations until terminated as provided under Part 12 of the Deed.

The Manager of the Fund is Hong Leong Asset Management Bhd, a company incorporated in Malaysia. The principal activity of the Manager is the management of unit trust funds, private retirement schemes and private investment mandates. Its holding company is Hong Leong Capital Berhad, a company incorporated in Malaysia and listed on the Main Market of Bursa Malaysia Securities Berhad.

The financial statements were authorised for issue by the Manager on 22 April 2024.

2. MATERIAL ACCOUNTING POLICY INFORMATION

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation

The financial statements have been prepared in accordance with the Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”).

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reported financial year. It also requires the Manager to exercise their judgment in the process of applying the Fund's accounting policies. The Manager believes that the underlying assumptions are appropriate and the Fund's financial statements therefore present the financial position results fairly. Although these estimates and judgment are based on the Manager's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(k).

- (i) Amendments to published standard and interpretations that are relevant and effective 1 January 2023.

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 March 2023 that have a material effect on the financial statements of the Fund.

- (ii) New standards, amendment and interpretations effective after 1 January 2023 and have not been early adopted.

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 March 2023 and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund, except the following set out below:

- Amendments to MFRS 101 'Classification of liabilities as current or non-current' clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the entity's expectations or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant).

The amendment is effective for the annual financial reporting period beginning on or after 1 March 2024.

The amendment shall be applied retrospectively.

(b) Financial assets and financial liabilities

Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income ('OCI') or through profit or loss), and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flows characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Fund's debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents and amount due from the Manager as financial assets measured at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund classifies amount due to the Manager, amount due to the Trustee and other payables and accruals as financial liabilities measured at amortised cost.

Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date – the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value.

Financial liabilities, within the scope of MFRS 9, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within net gain or loss on financial assets at fair value through profit or loss in the year which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of dividend income when the Fund's right to receive payments is established.

Unquoted fixed income securities are revalued on a daily basis based on fair value prices quoted by a bond pricing agency ("BPA") registered with the Securities Commission Malaysia as per the Securities Commission Malaysia's Guidelines on Unit Trust Funds. Where such quotation are not available or where the Manager is of the view that the price quoted by the BPA for a specific unquoted fixed income securities differs from the market price by more than 20 basis points, the Manager may use the market price, provided that the Manager:

- (i) records its basis for using non-BPA price;
- (ii) obtains necessary internal approvals to use the non-BPA price; and
- (iii) keeps an audit trail of all decisions and basis for adopting the market yield.

Deposits with licensed financial institutions are stated at cost plus accrued interest calculated on the effective interest rate method over the period from the date of placement to the date of maturity of the respective deposits, which is a close estimate of their fair value due to the short term nature of the deposits. Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective interest rate method.

Impairment

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. Management considers the probability of default to be closed to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of obligor's sources of income or assets to generate sufficient future cash flows to pay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

(c) Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). The financial statements are presented in Ringgit Malaysia (“RM”), which is the Fund’s functional and presentation currency.

(d) Income recognition

Interest income from deposits with licensed financial institutions, auto-sweep facility bank account and unquoted fixed income securities are recognised on the effective interest rate method on an accrual basis.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Realised gain or loss on disposal of unquoted fixed income securities is accounted for as the difference between the net disposal proceeds and the carrying amount of unquoted fixed income securities, determined on cost adjusted for accretion of discount or amortisation of premium.

(e) Cash and cash equivalents

For the purpose of statement of cash flows, cash and cash equivalents comprise cash at banks and deposits held in highly liquid investments that are readily convertible to known amounts of cash with an original maturity of three months or lesser which are subject to an insignificant risk of changes in value.

(f) Amount due from/to brokers/dealers

Amount due from/to brokers/dealers represents receivables/payables for investments sold/purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively.

These amounts are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method, less provision for impairment for amount due from brokers/dealers. A provision for impairment of amount due from a broker/dealer is established when there is objective evidence that the Fund will not be able to collect all amounts due from the relevant broker/dealer. Significant financial difficulties of the broker/dealer, probability that the broker/dealer will enter bankruptcy or financial reorganisation, and default in payments are considered indicators that the amount due from brokers/dealers is impaired. Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

(g) Taxation

Current tax expense is determined according to Malaysian tax laws at the prevailing tax rate based on the taxable profit earned during the financial year.

(h) Unit holders' capital

The unit holders' contributions to the Fund meet the definition of puttable instruments classified as financial liability under MFRS 132 "Financial Instruments: Presentation".

The Fund issues cancellable units, in two classes of units, known respectively as the Class A and Class D which are cancelled at the unit holder's option, and do not have identical features. The units are classified as financial liabilities. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's net asset value of respective classes. The outstanding units are carried at the redemption amount that is payable at the date of the statement of financial position if the unit holders exercises the right to put back the unit to the Fund.

Units are created and cancelled at prices based on the Fund's net asset value per unit of respective classes at the time of creation and cancellation. The Fund's net asset value per unit is calculated by dividing the net assets attributable to unit holders of respective classes with the total number of outstanding units of respective classes.

With effective on 14 October 2022, the Manager has terminated Class B and Class C.

(i) Increase/decrease in net assets attributable to unit holders

Income not distributed is included in net assets attributable to unit holders. Movements in net assets attributable to unit holders are recognised in the statement of comprehensive income as finance cost.

(j) Finance cost

A distribution to the Fund's unit holders is accounted for as a deduction from realised reserve. As a result of the reclassification of units from equity to financial liability, the Fund's distributions are no longer classified as dividend paid in the statement of changes in net assets attributable to unit holders, but rather as finance cost in the statement of comprehensive income.

A proposed distribution is recognised as a financial liability in the period in which it is approved by the Board of Directors of the Manager.

(k) Critical accounting estimates and judgments in applying accounting policies

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgments are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the Securities Commission Malaysia's Guidelines on Unit Trust Funds.

However, the Manager is of the opinion that there are no accounting policies which require significant judgment to be exercised.

3. FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk and interest rate risk), credit risk, liquidity risk and capital risk.

Financial risk management is carried out through internal control process adopted by the Manager and adherence to the investment restrictions as stipulated in the prospectus.

The following table analyses the financial assets and financial liabilities of the Fund in the statement of financial position as at the reporting date:

	Financial assets at FVTPL RM	Financial assets/ liabilities at amortised cost RM	Total RM
2024			
<u>Financial assets</u>			
Cash and cash equivalents (Note 9)	-	447,930,688	447,930,688
Amount due from the Manager			
-creation of units	-	500,000	500,000
Financial assets at FVTPL (Note 10)	1,271,582,722	-	1,271,582,722
	<u>1,271,582,722</u>	<u>448,430,688</u>	<u>1,720,013,410</u>
<u>Financial liabilities</u>			
Amount due to the Manager			
-management fee	-	459,380	459,380
Amount due to the Trustee	-	16,326	16,326
Other payables and accruals	-	11,448	11,448
	<u>-</u>	<u>487,154</u>	<u>487,154</u>

	Financial assets at FVTPL RM	Financial assets/ liabilities at amortised cost RM	Total RM
2023			
<u>Financial assets</u>			
Cash and cash equivalents (Note 9)	-	2,253,881,775	2,253,881,775
Financial assets at FVTPL (Note 10)	2,499,659,683	-	2,499,659,683
	<u>2,499,659,683</u>	<u>2,253,881,775</u>	<u>4,753,541,458</u>
<u>Financial liabilities</u>			
Amount due to the Manager			
-management fee	-	1,316,156	1,316,156
Amount due to the Trustee	-	36,571	36,571
Other payables and accruals	-	10,070	10,070
	<u>-</u>	<u>1,362,797</u>	<u>1,362,797</u>

All liabilities are financial liabilities which are carried at amortised cost.

(a) Market risk

(i) Price risk

Price risk arises mainly from the uncertainty about future prices of investments. It represents the potential loss the Fund might suffer through holding market positions in the face of price movements. The Manager manages the risk of unfavourable changes in prices by continuous monitoring of the performance and risk profile of the investment portfolio.

The price risk is managed through diversification and selection of securities and other financial instruments within specified limits according to the Deeds.

The Fund's overall exposure to price risk is as follows:

	2024 RM	2023 RM
Financial assets at FVTPL:		
- Unquoted fixed income securities*	1,271,582,722	2,499,659,683
	<u>1,271,582,722</u>	<u>2,499,659,683</u>

* Includes interest receivables of RM15,291,452 (2023: RM22,318,842).

The table below summarises the sensitivity of the Fund's net asset value and net assets attributable to unit holders to movements in prices of unquoted fixed income securities at the end of each reporting year. The analysis is based on the assumptions that the market price of the unquoted fixed income securities fluctuated by 5% with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the unquoted fixed income securities having regard to the historical volatility of the prices.

% Change in price of financial assets at FVTPL	Market value RM	Impact on net assets attributable to unit holders/net asset value RM
2024		
-5%	1,193,476,706	(62,814,564)
0%	1,256,291,270	-
5%	1,319,105,834	62,814,564
2023		
-5%	2,353,473,799	(123,867,042)
0%	2,477,340,841	-
5%	2,601,207,883	123,867,042

(ii) Interest rate risk

In general, when interest rates rise, prices of fixed income securities will tend to fall and vice versa. Therefore, the net asset value of the Fund may also tend to fall when interest rates rise or are expected to rise. However, investors should be aware that should the Fund hold a fixed income securities till maturity, such price fluctuations would dissipate as it approaches maturity, and thus the growth of the net asset value shall not be affected at maturity. In order to mitigate interest rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future interest rate trend of the Manager, which is based on its continuous fundamental research and analysis.

This risk is crucial since unquoted fixed income securities portfolio management depends on forecasting interest rate movements. Prices of unquoted fixed income securities move inversely to interest rate movements, therefore as interest rates rise, the prices of unquoted fixed income securities decrease and vice versa. Furthermore, unquoted fixed income securities with longer maturity and lower yield coupon rates are more susceptible to interest rate movements.

Investors should note that unquoted fixed income securities are subject to interest rate fluctuations. Such investments may be subject to unanticipated rise in interest rates which may impair the ability of the issuers to make payments of interest income and principal, especially if the issuers are highly leveraged. An increase in interest rates may therefore increase the potential for default by an issuer.

The table below summarises the sensitivity of the Fund's net asset value and net assets attributable to unit holders to movements in prices of unquoted fixed income securities held by the Fund at the end of the reporting year as a result of movement in interest rate. The analysis is based on the assumptions that the interest rate changed by 1% (100 basis points) with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the interest rate, having regard to the historical volatility of the interest rate.

Impact on net assets attributable to unit holders/net asset value		
% Change in interest rate	2024 RM	2023 RM
+1%	(27,231,657)	(57,714,142)
-1%	27,231,657	60,008,743

The Fund's exposure to interest rate risk associated with deposits with licensed financial institutions is not material as the deposits with licensed financial institutions are placed on a short term basis.

(b) Credit risk

Credit risk refers to the risk that an issuer or counterparty will default on its contractual obligation resulting in financial loss to the Fund.

Investment in unquoted fixed income securities may involve a certain degree of credit/default risk with regards to the issuers. Generally, credit risk or default risk is the risk of loss due to the issuer's non-payment or untimely payment of the investment amount as well as the returns on investment. This will cause a decline in value of the defaulted unquoted fixed income securities and subsequently depress the net asset value of the Fund. Usually credit risk is more apparent for an investment with a longer tenure, i.e. the longer the duration, the higher the credit risk. Credit risk can be managed by performing continuous fundamental credit research and analysis to ascertain the creditworthiness of its issuer. In addition, the Manager imposes a minimum rating requirement as rated by either local and/or foreign rating agencies and manages the duration of the investment in accordance with the objective of the Fund.

The credit risk arising from placements of deposits with licensed financial institutions is managed by ensuring that the Fund will only place deposits in reputable licensed financial institutions.

The settlement terms of the proceeds from the creation of units receivable from the Manager are governed by the Securities Commission Malaysia's Guidelines on Unit Trust Funds.

The credit/default risk is minimal as all transactions in unquoted investments are settled/paid upon delivery using approved brokers/dealers.

The following table sets out the credit risk concentration of the Fund at the end of each reporting year:

	Cash and cash equivalents RM	Amount due from the Manager - creation of units RM	Unquoted fixed income securities RM	Total RM
2024				
- AAA	447,930,688	-	-	447,930,688
- NR#	-	500,000	1,271,582,722	1,272,082,722
Total	447,930,688	500,000	1,271,582,722	1,720,013,410

	Cash and cash equivalents RM	Amount due from the Manager - creation of units RM	Unquoted fixed income securities RM	Total RM
2023				
- AAA	1,947,192,524	-	-	1,947,192,524
- AA1/AA+	306,689,251	-	-	306,689,251
- NR#	-	-	2,499,659,683	2,499,659,683
Total	2,253,881,775	-	2,499,659,683	4,753,541,458

The unquoted fixed income securities are not rated as the unquoted fixed income securities are guaranteed and issued by the Government of Malaysia.

All financial assets of the Fund are neither past due nor impaired.

(c) Liquidity risk

Liquidity risk is the risk that investments cannot be readily sold at or near its actual value without taking a significant discount. This will result in lower net asset value of the Fund.

The Manager manages this risk by maintaining sufficient level of liquid assets to meet anticipated payments and cancellations of the units by unit holders. Liquid assets comprise cash at banks, deposits with licensed financial institutions and other instruments.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at the end of each reporting year to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	Less than 1 month RM	1 month to 1 year RM	Total RM
2024			
<u>Financial liabilities</u>			
Amount due to the Manager			
- management fee	459,380	-	459,380
Amount due to the Trustee	16,326	-	16,326
Other payables and accruals	-	11,448	11,448
Net assets attributable to unit holders*	1,719,528,138	-	1,719,528,138
Contractual undiscounted cash flows	1,720,003,844	11,448	1,720,015,292

	Less than 1 month RM	1 month to 1 year RM	Total RM
2023			
<i>Financial liabilities</i>			
Amount due to the Manager			
-management fee	1,316,156	-	1,316,156
Amount due to the Trustee	36,571	-	36,571
Other payables and accruals	-	10,070	10,070
Net assets attributable to unit holders*	4,752,180,543	-	4,752,180,543
Contractual undiscounted cash flows	4,753,533,270	10,070	4,753,543,340

* Outstanding units are redeemed on demand at the unit holders option. However the Manager does not envisage that the contractual maturity disclosed in the table above will be representative of the actual cash outflows, as holder of these instruments typically retain them for the medium to long term.

(d) Capital risk

The capital of the Fund is represented by the net assets attributable to the unit holders. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unit holders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unit holders' and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

(e) Fair value estimation

Financial instruments comprise financial assets and financial liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The information presented herein represents the estimates of fair values as at the date of the statement of financial position.

The Fund's financial assets and financial liabilities are measured on an ongoing basis at either fair value or at amortised cost based on the respective classification.

The fair value of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the reporting date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each period end date. Valuation techniques used for non-standardised financial instruments such as options, currency swaps and other over-the-counter derivatives, include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

For instruments for which there is no active market, the Fund may use internally developed models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. Valuation models are used primarily to value unlisted equity, debt securities and other debt instruments for which market were or have been inactive during the financial year. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including model risk, liquidity risk and counter party risk.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an on-going basis.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1);
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2); and
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that requires significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy of the Fund's financial assets (by class) measured at fair value:

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
2024				
<u>Financial assets at FVTPL:</u>				
- Unquoted fixed income securities		- 1,271,582,722		- 1,271,582,722
2023				
<u>Financial assets at FVTPL:</u>				
- Unquoted fixed income securities		- 2,499,659,683		- 2,499,659,683

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include unquoted fixed income securities. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

- (ii) The carrying values of financial assets (other than financial assets at FVTPL) and financial liabilities are a reasonable approximation of their fair values due to their short term nature.

4. INTEREST INCOME FROM FINANCIAL ASSETS MEASURED AT AMORTISED COST

	2024 RM	2023 RM
Interest income from:		
- Deposits with licensed financial institutions	50,823,622	63,747,475
- Auto-sweep facility bank account	81,329	306,939
	50,904,951	64,054,414

5. MANAGEMENT FEE AND MANAGEMENT FEE REBATES

In accordance with Division 13.1 of the Deed, the Manager is entitled to a management fee of up to 3.00% per annum calculated daily based on the net asset value of the Fund.

For the financial year ended 29 February 2024, the management fee are recognised at an average rate of 0.40% and 0.15% per annum for Class A and Class D respectively.

For the financial year ended 28 February 2023, the management fee is recognised at a rate of 0.25% per annum for Class A from 1 March 2022 to 31 March 2022 and effective from 1 April 2022, the management fee is recognised at a rate of 0.40% per annum for Class A. While the management fee is recognised at a rate of 0.15% per annum for Class D throughout the financial year. The fee was waived by the Manager for Class B and Class C.

The management fee rebates relate to the rebates received from the Manager for investing in unquoted collective investment scheme. The average rates of rebates were calculated on the net asset value of respective unquoted collective investment scheme on a daily basis as follow:

	2024 %	2023 %
<u>Unquoted collective investment scheme:</u>		
Hong Leong Dana Al-Izdihar	-	0.10

There is no further liability to the Manager in respect of management fee other than the amount recognised above.

6. TRUSTEE'S FEE

In accordance with Division 13.2 of the Deed, the Trustee is entitled to a fee not exceeding 0.03% per annum subject to a minimum of RM12,000 per annum calculated daily based on the net asset value of the Fund.

For the financial year ended 29 February 2024, the Trustee's fee is recognised at a rate of 0.01% (2023: 0.01%) per annum.

There is no further liability to the Trustee in respect of Trustee's fee other than the amount recognised above.

7. FINANCE COST

Distribution to unit holders is derived from the following sources:

	2024 RM	2023 RM
Prior financial period's realised income	3,227,310	22,762,072
Interest income from financial assets measured at FVTPL and amortised cost	104,929,155	88,177,535
Dividend income	-	2,875
Less: Expenses	(9,855,626)	(8,763,520)
Net distributions amount	98,300,839	102,178,962
Net distributions per unit (sen)	5.9610	4.8570
Gross distributions per unit (sen)	5.9610	4.8570

Date of Declaration

Distribution on 20/18 March 2023/2022

Gross/net distribution per unit (sen)		
- Class A	0.2280	0.1520
- Class D	0.2450	0.1690

Distribution on 18 April 2023/2022

	2024 RM	2023 RM
Distribution on 18 July 2023/2022		
Gross/net distribution per unit (sen)		
- Class A	0.2230	0.1450
- Class D	0.2420	0.1640
Distribution on 18 August 2023/2022		
Gross/net distribution per unit (sen)		
- Class A	0.2490	0.1880
- Class D	0.2690	0.2080
Distribution on 18/19 September 2023/2022		
Gross/net distribution per unit (sen)		
- Class A	0.2510	0.2160
- Class D	0.2710	0.2370
Distribution on 18 October 2023/2022		
Gross/net distribution per unit (sen)		
- Class A	0.2280	0.1170
- Class D	0.2470	0.1360
Distribution on 20/21 November 2023/2022		
Gross/net distribution per unit (sen)		
- Class A	0.2530	0.2330
- Class D	0.2740	0.2550
Distribution on 18/19 December 2023/2022		
Gross/net distribution per unit (sen)		
- Class A	0.2060	0.2160
- Class D	0.2240	0.2340
Distribution on 18 January 2024/2023		
Gross/net distribution per unit (sen)		
- Class A	0.2410	0.2560
- Class D	0.2620	0.2750
Distribution on 19/20 February 2024/2023		
Gross/net distribution per unit (sen)		
- Class A	0.2440	0.2740
- Class D	0.2630	0.2960

The composition of distribution payments sourced from income and capital are disclosed in below:

	Income RM	%	Capital RM	%
2024	98,300,839	100.00	-	-
2023	102,178,962	100.00	-	-

Net distributions above are sourced from prior and current financial year's realised income. Gross distributions are derived using total income less total expenses.

Gross distribution per unit is derived from net realised income less expenses divided by units in circulation, while net distribution per unit is derived from net realised income less expenses and taxation divided by units in circulation.

The above distributions have been proposed before taking into account the unrealised gain of RM15,066,567 (2023: unrealised loss of RM6,967,310) which is carried forward to the next financial year.

8. TAXATION

	2024 RM	2023 RM
Tax charge for the financial year:		
Current taxation	-	-

The numerical reconciliation between profit before taxation multiplied by the Malaysian statutory income tax rate and tax expense of the Fund is as follows:

	2024 RM	2023 RM
Profit before taxation	12,729,941	(6,240,584)
Taxation at Malaysian statutory rate of 24% (2023: 24%)	3,055,186	(1,497,740)
Tax effects of:		
Investment income not subject to tax	(29,413,988)	(26,523,499)
Expenses not deductible for tax purposes	23,674,155	24,628,298
Restriction on tax deductible expenses for unit trust fund	2,684,647	3,392,941
Taxation	-	-

9. CASH AND CASH EQUIVALENTS

	2024 RM	2023 RM
Short term deposits with licensed financial institutions	447,909,306	2,253,860,336
Cash at banks	21,382	21,439
	447,930,688	2,253,881,775

The weighted average effective interest rates per annum are as follows:

	2024 %	2023 %
Short term deposits with licensed financial institutions	3.32	4.01

Deposits with licensed financial institutions have an average remaining maturity of 11 days (2023: 26 days).

10. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS ("FVTPL")

	2024 RM	2023 RM
<u>Financial assets at FVTPL:</u>		
Unquoted fixed income securities	1,271,582,722	2,499,659,683
<u>Net gain/(loss) on financial assets at FVTPL:</u>		
Realised loss on disposals	(1,082,836)	(646,097)
Changes in unrealised fair values	12,619,730	(7,012,202)
Management fee rebates	-	192
	11,536,894	(7,658,107)

* The Manager has terminated Class B and Class C as at 14 October 2022 as disclosed in note 2(h).

12. TOTAL EXPENSE RATIO (“TER”)

	2024 %	2023 %
TER	0.34	0.34

Total expense ratio includes management fee, Trustee’s fee, auditors’ remuneration, tax agent’s fee and other expenses for the financial year divided by the Fund’s average net asset value calculated on a daily basis and is calculated as follows:

$$\text{TER} = \frac{(A+B+C+D+E)}{F} \times 100$$

Where;

- A = Management fee
- B = Trustee’s fee
- C = Auditors’ remuneration
- D = Tax agent’s fee
- E = Other expenses
- F = Average net asset value of the Fund calculated on a daily basis

The average net asset value of the Fund for the financial year calculated on a daily basis is RM3,351,610,100 (2023: RM4,328,962,838).

13. PORTFOLIO TURNOVER RATIO (“PTR”)

	2024 Times	2023 Times
PTR	0.21	0.21

PTR is derived from the following calculation:

$$\frac{(\text{Total acquisitions for the financial year} + \text{total disposals for the financial year})}{2}$$

Average net asset value of the Fund for the financial year calculated on a daily basis

Where;

- total acquisitions for the financial year
= RM276,310,100 (2023: RM1,780,971,925)
- total disposals for the financial year
= RM1,128,635,993 (2023: RM76,495,731)

14. UNITS HELD BY THE MANAGER AND RELATED PARTIES TRANSACTIONS AND BALANCES
