PRS Provider's Review and Report

I. FUND INFORMATION

Fund Name

Hong Leong PRS Moderate Fund ("HLPRSMF" or "the Fund")

Fund Category

Core (Moderate)

Fund Type

Not Applicable

Investment Objective

The Fund aims to seek capital growth over the long-term while seeking income returns.

Duration of the Fund and its termination date, where applicable

Not Applicable

Benchmark

A composite of FTSE Bursa Malaysia KLCI (60%) and Malayan Banking Berhad 12 months fixed deposit rate (40%).

Distribution Policy

Incidental. Distribution, if any, will be automatically reinvested into the Fund.

II. FUND PERFORMANCE

Chart 1: Performance of the Fund versus the benchmark since launch

Source: Lipper for Investment Management, in Malaysian Ringgit terms, ex-distribution, NAV Per Unit-to-NAV Per Unit basis with gross income (if any) from HLPRSMF reinvested.

Past performance is not necessarily indicative of future performance and unit prices and investment returns may go down, as well as up.

Performance Review

This Annual Report covers the twelve-month financial year from 1 August 2023 to 31 July 2024.

The Fund posted a return of 6.05% (based on NAV Per Unit-to-NAV Per Unit basis with gross income (if any) from the Fund reinvested) in the past twelve months while its benchmark FTSE Bursa Malaysia (FBM) KLCI/Maybank 12 Months Fixed Deposit (FD) Rate (60:40) registered a return of 7.97%.

Since launch, the Fund has registered a return of 5.80% while its benchmark the FBM KLCI/Maybank 12 Months FD Rate (60:40) registered a return of 8.44% (in Malaysian Ringgit terms).

Table 1: Performance of the Fund for the following periods as at 31 July 2024 (Source: Lipper for Investment Management)

	3 Months	6 Months	1 Year	Since Launch
HLPRSMF Return (%)	4.65	8.20	6.05	5.80
Benchmark (%)	2.16	4.98	7.97	8.44

Table 2: Return of the Fund based on NAV Per Unit-to-NAV Per Unit basis for the period 31 July 2023 to 31 July 2024 (Source: Lipper for Investment Management)

	31-Jul-24	31-Jul-23	Return (%)
NAV Per Unit	RM0.5290	RM0.4988	6.05
Benchmark	108.44	100.44	7.97
vs Benchmark (%)	-	-	-1.92

Table 3: Financial Highlights

The Net Asset Value attributable to members is represented by:

	31-Jul-24 (RM)	31-Jul-23 (RM)	Change (%)
Members' Capital	182,440	15,100	1,108.21
Retained Earnings/ (Accumulated Loss)	12,370	(11)	112,551.45
Net Asset Value	194,810	15,089	1,191.07
Units in Circulation	368,232	30,253	1,117.18

Table 4: The Highest and Lowest NAV Per Unit, Total Return of the Fund and the breakdown into Capital Growth and Income Distribution for the financial year/period ended 31 July

	Financial Year 2024	Financial Period 2023*
Highest NAV Per Unit (RM)	0.5346	0.5183
Lowest NAV Per Unit (RM)	0.4826	0.4853
Capital Growth (%)	6.05	-0.24
Income Distribution (%)	-	-
Total Return (%)	6.05	-0.24

III. INVESTMENT PORTFOLIO

Chart 2: Asset Allocation - August 2023 to July 2024

Chart 3: Sector Allocation as at 31 July 2024

Strategies employed by the Fund during the period under review

For the equity portion, the Fund took some profit in the technology and energy sectors and increase its exposure to high quality index stocks, increasing weightage in the financial and utilities sector in particular during the financial year under review. This was done to take advantage of improving outlook on banks margins and higher electricity demand coming from the higher Data Centre (DC) investments in the country. We also expect these stocks to benefit from possible increase in foreign fund inflow into the Malaysia market.

For the fixed income portion, we are fully invested in government securities and high investment grade corporate bonds. We will continue to favour high investment grade corporate bonds with strong fundamentals over government bonds as we seek to rebalance the asset allocation of the Fund for better yield pick-up.

An explanation on the differences in portfolio composition

During the financial year under review, the Fund maintained its allocation to Hong Leong Balanced Fund as per the mandate.

Operational review of the Fund

For the financial year under review, there were no significant changes in the state of affairs of the Fund or circumstances that would materially affect the interest of members up to the date of this PRS Provider's report.

IV. MARKET REVIEW

Equities

During the financial year under review, the MSCI AC Asia Pacific ex Japan Index rose 8.7%. The best performing markets were India and Taiwan while the laggards were Hong Kong and China. In the local market, the FTSE Bursa Malaysia (FBM) KLCI rose 13.9%. Small caps outperformed as the FBM Small Cap Index rose 19.1%.

The third quarter of 2023 started strongly. Despite the United States (US) Federal Reserve (Fed) raising the policy rate by another 25 basis points (bps), expectations that the interest hike cycle is nearing the end buoyed investor sentiment. However, the market euphoria was short-lived as bond yields accelerated higher. With the China economy not exactly in the pink of health and the US economy starting to show conspicuous signs of weakening, bonds look increasingly attractive compared to equities.

The final quarter of 2023 started on a tentative note as investors maintained a high cash level in their portfolios in view of the weak economic outlook and heightened geopolitical risk. However, global equity markets rallied strongly in the last two months of the year as statements by the US Fed left very little doubt that the current rate hike cycle is at an end. US indices led the global equity rally as the Dow Jones Industrial Average (DJIA) Index hit an all-time high in December.

In the first quarter of 2024, stronger-than-expected economic data out of US resulted in Fed rate cut expectations being dialled back. The global Artificial Intelligence (AI) optimism helped drive upside in tech and related proxies. The Chinese market saw some optimism during the quarter but lost momentum due to US-China tensions. Japan equities staged a strong resurgence as the country's exit from deflation attracted investors.

The second quarter of 2024 started strongly, even with US Inflation data surprising on the upside. Despite bond yields accelerating higher, AI optimism continue to dominate the market. ASEAN generally underperformed and their currencies too came under pressure as US Dollar (USD) surged. Hong Kong in particular saw weakness as the country reported underwhelming property data.

The Malaysia market outperformed peers in the third quarter of 2023 as investors seek shelter in defensive equity markets during the prevailing risk-off sentiment. The conclusion of the state elections also removed some degree of political uncertainty while the launch of the Madani economy by the Prime Minister also provided a boost to investor sentiment in the local market.

Although the FBM KLCI posted a positive return, it was a quiet fourth quarter for the Malaysia market in comparison to other global peers as investors, particularly foreign investors, appeared to find more urgency to cover their underweight in developed markets before deploying cash in emerging markets.

In the first quarter of 2024, Malaysia started strongly, leading the ASEAN market with AI related names performing well. This was further reinforced by the signing of a memorandum of understanding between Malaysia and Singapore to form the Johor-Singapore special economic zone. While foreign interest was evident, it did not translate into real flows as Malaysia recorded a net foreign outflow during the quarter.

Trading value in Malaysia was elevated in the second quarter of 2024, reaching values not seen since May 2021 during the COVID-19 lockdown. AI continued to drive the markets, spilling over to the construction sector, which is seen to benefit from the DC driven boom. The Malaysian index was one of the best performers year-to-date (YTD) in ASEAN.

Fixed Income

During the financial year under review, the US Fed held the Federal Funds Target Rate (FFTR) steady at 5.25% to 5.50% till the end of the financial year. Headline Consumer Price Index spiked up in August driven by higher energy prices, while core inflation somewhat moderated. US Treasuries (UST) were pressured over the Fed's "higher for longer" stance, inflation worries, and concerns over US credit rating, resulting in a high of 5.22% and 4.99% in UST 2-Year and 10-Year yields respectively in October 2023 (end-second quarter of 2023: 2-Year – 4.94%, 10-Year – 3.85%) The US economy was surprisingly resilient although there were signs of softening in the services and labour market. Meanwhile, US inflation showed signs of easing in the fourth quarter of 2023 but remained above the targeted rate of 2%. UST 2-Year and 10-Year yields ended the year 2023 at 4.25% and 3.88% respectively.

At the start of 2024, the market was volatile again following stronger-than-expected consumer spending and Producer Price Index (PPI) in January amid sticky inflation numbers and strong job data. The Fed remained concerned over the lack of progress on inflation and held the view to hold rates steady until there is greater confidence that US inflation was moving sustainably towards 2%. UST 2-Year and 10-Year yields spiked up from January to April and declined further to 4.26% and 4.03% respectively in end-July 2024 (end-July 2023: 2-Year – 4.88%, 10-Year – 3.96%).

On the domestic front, Bank Negara Malaysia (BNM) left Overnight Policy Rate (OPR) unchanged at 3% in the July 2023 meeting. In the Budget 2024 released in October, the government aims to reduce fiscal deficit from 5.0% in 2023 to 4.3% in 2024. To boost government revenue, Sales and Services tax (SST), excluding food, beverages and telecommunications, will be increased from 6% to 8% and capital gains tax of 10% on unlisted shares. Other subsidy measures include rationalising diesel subsidy and removing temporary price controls on chicken and eggs to enable a sustainable market supply. Malaysia's headline inflation rate rose to a 10-Month high of 2.0% in May, due largely to higher Housing, Water, Electricity, Gas and Other Fuels (HWEG) at 3.2%. HWEG inflation has increased to the highest level since September 2022, attributable to higher housing costs and water tariff hikes in several states.

During the financial year under review, Malaysian Government Securities (MGS) yields generally tracked the UST movements although at a more subdued level as domestic inflation numbers were more stable. Local bond yields were volatile throughout the financial year, however 5-Year and 10-Year MGS yields ended marginally lower at 3.52% and 3.72% respectively at end-July 2024 (end-June 2023: 5-Year – 3.60%, 10-Year – 3.84%).

V. FUTURE PROSPECTS AND PROPOSED STRATEGIES

Equities

We expect investor sentiment to be cautious leading up to the US presidential elections. There are signs of improving inflationary data towards the end of the second quarter, bringing Fed rate cuts back into the equation. Economic data will be monitored closely for any sustained weakness. With inflation expected to be at benign levels for the year, it is encouraging to know that global central banks will have the flexibility to ease monetary policy to support the economy should the need arise.

We expect the local market to also gain some interest among foreign investors who are looking to have exposure in the emerging market space as the 'risk-on' sentiment prevails. Other external factors that might support interest in the local market includes the expected correction in the USD and the high valuation of the US market.

However, as the economic outlook is still fraught with uncertainty, we expect investors to remain cautious. We opine the best strategy to navigate through this challenging environment is through bottom-up stock picking and remain invested in high quality companies.

Fixed Income

In the 30/31 July 2024 Federal Open Market Committee (FOMC) meeting, the Fed kept the FFTR range unchanged at 5.25%-5.50%, as anticipated by markets. There was a significant change to its monetary policy statement whereby the Fed shifted its focus to the dual mandate (employment and inflation goals) instead of just on inflation. Powell's dovish commentary seem to suggest that a September rate cut is on the table, if inflation and employment data is in line with expectations.

June inflation was steady at 2.0% despite the rationalisation of diesel subsidy which resulted in a benign average inflation reading of 1.8% in the first half of 2024. While domestic economy has performed within BNM's expectations with real Gross Domestic Product (GDP) growth anticipated to improve to 4%-5%, we expect BNM to keep OPR unchanged at 3.00% for the rest of 2024. Upside inflation risks persist in view of the RON95 fuel subsidy rationalisation, effects of EPF withdrawals and salary increases for government servants.

Credit spreads for corporate bonds have tightened considerably since January 2024. However, in the longer run, with the anticipation of rate cuts in the developed markets, we remain positive on the medium-term outlook for the local bond market. We continue to favour high investment grade corporate bonds with strong fundamentals to improve the fund yield.

VI. SOFT COMMISSIONS

The PRS Provider may receive soft commissions from brokers/dealers in the form of goods and services such as research materials, data and quotation services incidental to investment management of the Fund and investment related publications. Such soft commissions received are utilised in the investment management of the Fund and are of demonstrable benefit to Fund and members and there was no churning of trades.

During the financial year under review, the Fund has not received goods or services by way of soft commissions.

VII. SECURITIES LENDING OR REPURCHASE TRANSACTIONS

No securities lending or repurchase transactions have been carried out during the financial year under review.

VIII. CROSS TRADE TRANSACTIONS

No cross trade transactions have been carried out during the financial year under review.

STATEMENT BY THE PRS PROVIDER

I, Chue Kwok Yan, as the Director of Hong Leong Asset Management Bhd, do hereby state that, in the opinion of the PRS Provider, the financial statements set out on pages 17 to 44 are drawn up in accordance with the provision of the Deeds and give a true and fair view of the financial position of the Fund as at 31 July 2024 and of its financial performance, changes in equity and cash flows for the financial year ended 31 July 2024 in accordance with the Malaysian Financial Reporting Standards ("MFRS") and International Financial Reporting Standards ("IFRS").

For and on behalf of the PRS Provider,

Hong Leong Asset Management Bhd

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF HONG LEONG PRS MODERATE FUND

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our Opinion

In our opinion, the financial statements of Hong Leong PRS Moderate Fund ("the Fund") give a true and fair view of the financial position of the Fund as at 31 July 2024, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 31 July 2024, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 17 to 44.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information other than the financial statements and auditors' report thereon

The PRS Provider of the Fund is responsible for the other information. The other information comprises the PRS Provider's Review and Report, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the PRS Provider for the financial statements

The PRS Provider of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The PRS Provider is also responsible for such internal control as the PRS Provider determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the PRS Provider is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the PRS Provider either intends to liquidate the Fund or to terminate the Fund, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the PRS Provider.

- (d) Conclude on the appropriateness of the PRS Provider's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the PRS Provider regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

OTHER MATTERS

This report is made solely to the members of the Fund, and for no other purpose. We do not assume responsibility to any other person for the content of this report.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 JULY 2024

1. THE FUND, THE PRS PROVIDER AND THEIR PRINCIPAL ACTIVITIES

Hong Leong PRS Moderate Fund (“the Fund”) was constituted pursuant to the execution of a Deed dated 24 June 2022 between Hong Leong Asset Management Bhd (“the PRS Provider”) and CIMB Commerce Trustee Berhad (“the Scheme Trustee”) for the members of the Fund.

The Fund aims to seek capital growth over the long-term while seeking income returns.

The investment strategy of the Fund is to invest in a basket of collective investment schemes which have similar investment objective as the Fund’s, i.e. capital growth over the long-term while seeking income returns. The Fund will invest a minimum of 70% of its net asset value into balanced collective investment schemes and up to 30% of its net asset value into fixed income and/or money market collective investment schemes. The Fund commenced operations on 20 December 2022 and will continue its operations until terminated as provided under Part 14 of the Deed.

The PRS Provider of the Fund is Hong Leong Asset Management Bhd, a company incorporated in Malaysia. The principal activity of the PRS Provider is the management of unit trust funds, private retirement schemes and private investment mandates. Its holding company is Hong Leong Capital Berhad, a company incorporated in Malaysia and listed on the Main Market of Bursa Malaysia Securities Berhad.

The financial statements were authorised for issue by the PRS Provider on 18 September 2024.

2. MATERIAL ACCOUNTING POLICY INFORMATION

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation

The financial statements have been prepared in accordance with the Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”).

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reported financial year/period. It also requires the PRS Provider to exercise their judgement in the process of applying the Fund’s accounting policies. The PRS Provider believes that the underlying assumptions are appropriate and the Fund’s financial statements therefore present the financial position results fairly. Although these estimates and judgement are based on the PRS Provider’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(i).

(i) Amendments to published standard and interpretations that are relevant and effective 1 August 2023.

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 August 2023 that have a material effect on the financial statements of the Fund.

- (ii) New standards, amendment and interpretations effective after 1 August 2023 and have not been early adopted.

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 August 2023. None of these are expected to have a material effect on the financial statements of the Fund, except the following set out below:

- Amendments to MFRS 101 'Classification of liabilities as current or non-current' clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the entity's expectations or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant).

The amendment is effective for the annual financial reporting period beginning on or after 1 August 2024.

The amendment shall be applied retrospectively.

(b) Financial assets and financial liabilities

Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income ('OCI') or through profit or loss), and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flows characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Fund's debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents and amount due from the PRS Provider as financial assets measured at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund classifies amount due to the PRS Provider, amount due to the Scheme Trustee and amount due to the PPA as financial liabilities measured at amortised cost.

Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date – the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value.

Financial liabilities, within the scope of MFRS 9, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within net gain or loss on financial assets at fair value through profit or loss in the year/period which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of dividend income when the Fund's right to receive payments is established.

Unquoted collective investment scheme is valued at the last published net asset value per unit at the date of the statement of financial position.

Deposits with licensed financial institutions are stated at cost plus accrued interest calculated on the effective interest rate method over the period from the date of placement to the date of maturity of the respective deposits, which is a close estimate of their fair value due to the short term nature of the deposits. Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective interest rate method.

Impairment

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. Management considers the probability of default to be closed to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of obligor's sources of income or assets to generate sufficient future cash flows to pay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year/period.

(c) Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's functional and presentation currency.

(d) Income recognition

Dividend income is recognised on the ex-dividend date when the Fund's right to receive payment is established.

Interest income from deposits with licensed financial institutions and auto-sweep facility bank account are recognised on the effective interest rate method on an accrual basis.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Realised gain or loss on disposal of unquoted collective investment scheme is accounted for as the difference between the net disposal proceeds and the carrying amount of unquoted collective investment scheme, determined on a weighted average cost basis.

(e) Cash and cash equivalents

For the purpose of statement of cash flows, cash and cash equivalents comprise cash at banks and deposits held in highly liquid investments that are readily convertible to known amounts of cash with an original maturity of three months or lesser which are subject to an insignificant risk of changes in value.

(f) Taxation

Private retirement scheme approved by Securities Commission Malaysia which is regarded as an approved scheme pursuant to the Act, the income accruing are exempted from tax under the Act.

(g) Distribution

A distribution to the Fund's members is accounted for as a deduction from realised reserve. A proposed distribution is recognised as a liability in the financial year/period in which it is approved by the Board of Directors of the PRS Provider.

(h) Member's capital

The member's contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the member to a proportionate share of the Fund's net asset value;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase the units; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss and change in the net asset value of the Fund.

The outstanding units are carried at the redemption amount that is payable at the date of the statement of financial position if member exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's net asset value per unit at the time of creation and cancellation. The Fund's net asset value per unit is calculated by dividing the net assets attributable to members with the total number of outstanding units.

(i) Critical accounting estimates and judgements in applying accounting policies

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgements are continually evaluated by the PRS Provider and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In undertaking any of the Fund's investment, the PRS Provider will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the Securities Commission Malaysia's Guidelines on Private Retirement Schemes.

However, the PRS Provider is of the opinion that there are no accounting policies which require significant judgement to be exercised.

3. FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk and interest rate risk), credit risk, liquidity risk, capital risk and collective investment scheme risk.

Financial risk management is carried out through internal control process adopted by the PRS Provider and adherence to the investment restrictions as stipulated in the Disclosure Document.

The following table analyses the financial assets and financial liabilities of the Fund in the statement of financial position as at the reporting date:

	Financial assets at FVTPL RM	Financial assets/liabilities at amortised cost RM	Total RM
2024			
<u>Financial assets</u>			
Cash and cash equivalents	-	22,682	22,682
Amount due from the PRS Provider			
-management fee rebate	-	176	176
Financial assets at FVTPL (Note 9)	172,202	-	172,202
	172,202	22,858	195,060
<u>Financial liabilities</u>			
Amount due to the PRS Provider			
-management fee	-	205	205
Amount due to the Scheme Trustee	-	7	7
Amount due to the PPA	-	38	38
	-	250	250

	Financial assets at FVTPL RM	Financial assets/liabilities at amortised cost RM	Total RM
2023			
<u>Financial assets</u>			
Cash and cash equivalents	-	1,625	1,625
Amount due from the PRS Provider			
-management fee rebate	-	13	13
Financial assets at FVTPL (Note 9)	13,467	-	13,467
	13,467	1,638	15,105
<u>Financial liabilities</u>			
Amount due to the PRS Provider			
-management fee	-	14	14
Amount due to the Scheme Trustee	-	1	1
Amount due to the PPA	-	1	1
	-	16	16

All liabilities are financial liabilities which are carried at amortised cost.

(a) Market risk

(i) Price risk

Price risk arises mainly from the uncertainty about future prices of investments. It represents the potential loss the Fund might suffer through holding market positions in the face of price movements. The PRS provider manages the risk of unfavourable changes in prices by continuous monitoring of the performance and risk profile of the investment portfolio.

The price risk is managed through diversification and selection of securities and other financial instruments within specified limits according to the Deed.

The Fund's overall exposure to price risk is as follows:

	2024 RM	2023 RM
<u>Financial assets at FVTPL:</u>		
- Unquoted collective investment scheme	172,202	13,467

The table below summarises the sensitivity of the Fund's net asset value and profit/(loss) after taxation to movements in prices of unquoted collective investment scheme at the end of the reporting year/period. The analysis is based on the assumptions that the price of the unquoted collective investment scheme fluctuated by 5% with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the unquoted collective investment scheme having regard to the historical volatility of the prices.

% Change in price of financial assets at FVTPL	Market value RM	Impact on profit after taxation/net asset value RM
2024		
-5%	163,592	(8,610)
0%	172,202	-
5%	180,812	8,610
2023		
-5%	12,794	(673)
0%	13,467	-
5%	14,140	673

(ii) Interest rate risk

Interest rate risk is the risk that the value of the Fund's investments and its return will fluctuate because of changes in market interest rates.

Interest rate is a general economic indicator that will have an impact on the management of the Fund. The Fund's exposure to the interest rate risk is mainly confined to short term placements with licensed financial institutions. The PRS Provider overcomes the exposure by way of maintaining deposits on a short term basis.

As at end of the reporting year/period, the Fund does not hold any deposits and is not exposed to a material level of interest rate risk.

(b) Credit risk

Credit risk refers to the risk that an issuer or counterparty will default on its contractual obligation resulting in financial loss to the Fund.

The credit risk arising from placements of deposits with licensed financial institutions is managed by ensuring that the Fund will only place deposits in reputable licensed financial institutions.

The settlement terms of the proceeds from the creation of units receivable from the PRS Provider are governed by the Securities Commission Malaysia's Guidelines on Private Retirement Schemes.

The following table sets out the credit risk concentration of the Fund at the end of the reporting year/period:

	Cash and cash equivalents RM	Amount due from the PRS Provider - management fee rebate RM	Total RM
2024			
- AAA	22,682	-	22,682
- NR	-	176	176
	22,682	176	22,858
2023			
- AAA	1,625	-	1,625
- NR	-	13	13
	1,625	13	1,638

All financial assets of the Fund are neither past due nor impaired.

(c) Liquidity risk

Liquidity risk is the risk that investments cannot be readily sold at or near its actual value without taking a significant discount. This will result in lower net asset value of the Fund.

The PRS Provider manages this risk by maintaining sufficient level of liquid assets to meet anticipated payments and cancellations of the units by members. Liquid assets comprise cash at banks, deposits with licensed financial institutions and other instruments.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at the end of each reporting year/period to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	Less than 1 month RM	1 month to 1 year RM	Total RM
2024			
<u>Financial liabilities</u>			
Amount due to the PRS Provider			
-management fee	205	-	205
Amount due to the Scheme Trustee	7	-	7
Amount due to the PPA	-	38	38
Contractual cash out flows	212	38	250
2023			
<u>Financial liabilities</u>			
Amount due to the PRS Provider			
-management fee	14	-	14
Amount due to the Scheme Trustee	1	-	1
Amount due to the PPA	-	1	1
Contractual cash out flows	15	1	16

(d) Capital risk

The capital of the Fund is represented by equity consisting of members' capital and retained earnings/(accumulated loss). The amount of equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of member. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for members' and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

(e) Collective investment scheme risk

This risk is associated with the Fund's investment in collective investment scheme exposing the Fund to the inherent investment risks faced by the collective investment scheme. The Fund may also be exposed to liquidity risk which may arise from the inability of the collective investment scheme to meet redemption amounts, as well as the risk of not being aligned with the Fund's mandate in the event the collective investment scheme that the Fund is invested into breaches its asset allocation limits. Therefore, should any of the risks faced by the collective investment scheme materialised, the performance of the Fund will be affected.

(f) Fair value estimation

Financial instruments comprise financial assets and financial liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The information presented herein represents the estimates of fair values as at the date of the statement of financial position.

The Fund's financial assets and financial liabilities are measured on an ongoing basis at either fair value or at amortised cost based on the respective classification.

The fair value of financial assets traded in active market (such as trading securities) are based on quoted market prices at the close of trading on the reporting date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the PRS Provider will determine the point within the bid-ask spread that is most representative of the fair value.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each year/period end date. Valuation techniques used for non-standardised financial instruments such as options, currency swaps and other over-the-counter derivatives, include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

For instruments for which there is no active market, the Fund may use internally developed models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. Valuation models are used primarily to value unlisted equity, debt securities and other debt instruments for which market were or have been inactive during the financial year/period. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including model risk, liquidity risk and counter party risk.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an on-going basis.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1);
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2); and
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that requires significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy of the Fund's financial assets (by class) measured at fair value:

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
2024				
<u>Financial assets at FVTPL:</u>				
- Unquoted collective investment scheme	-	172,202	-	172,202
2023				
<u>Financial assets at FVTPL:</u>				
- Unquoted collective investment scheme	-	13,467	-	13,467

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include unquoted collective investment scheme. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

- (ii) The carrying values of financial assets (other than financial assets at FVTPL) and financial liabilities are a reasonable approximation of their fair values due to their short term nature.

4. MANAGEMENT FEE AND MANAGEMENT FEE REBATE

In accordance with Division 15.1 of the Deed, the PRS Provider is entitled to a management fee of up to 3.00% per annum calculated daily based on the net asset value of the Fund.

For the financial year ended 31 July 2024, the management fee is recognised at a rate of 1.25% (20.12.2022 (date of launch) to 31.07.2023: 1.25%) per annum.

The management fee rebate relates to the rebate received from the PRS Provider for investing in unquoted collective investment scheme. The average rates of rebates were calculated on the net asset value of respective unquoted collective investment scheme on a daily basis as follow:

	01.08.2023 to 31.07.2024 %	20.12.2022 (date of launch) to 31.07.2023 %
<u>Unquoted collective investment scheme:</u>		
- Hong Leong Balanced Fund	1.25	1.25

There is no further liability to the PRS Provider in respect of management fee other than the amount recognised above.

5. SCHEME TRUSTEE'S FEE

In accordance with Division 15.2 of the Deed, the Scheme Trustee is entitled to a fee not exceeding 2.00% (excluding foreign custodian fees and charges) per annum calculated daily based on the net asset value of the Fund.

For the financial year ended 31 July 2024, the Scheme Trustee's fee is recognised at a rate of 0.04% (20.12.2022 (date of launch) to 31.07.2023: 0.04%) per annum.

There is no further liability to the Scheme Trustee in respect of Scheme Trustee's fee other than the amount recognised above.

6. PRIVATE PENSION ADMINISTRATOR'S ("PPA") ADMINISTRATION FEE

For the financial year ended 31 July 2024, the Private Pension Administrator's administration fee is recognised at a rate of 0.04% (20.12.2022 (date of launch) to 31.07.2023: 0.04%) per annum calculated daily based on the net asset value of the Fund.

There is no further liability to the PPA in respect of Private Pension Administrator's administration fee other than the amount recognised above.

7. AUDITORS' REMUNERATION AND TAX AGENT'S FEE

For the financial year ended 31 July 2024 and financial period from 20 December 2022 (date of launch) to 31 July 2023, auditors' remuneration and tax agent's fee were borne by the PRS Provider.

8. TAXATION

	01.08.2023 to 31.07.2024	20.12.2022 (date of launch) to 31.07.2023
	RM	RM
Tax charge for the financial year/period:		
Current taxation	-	-

The numerical reconciliation between profit/(loss) before taxation multiplied by the Malaysian statutory income tax rate and tax expense of the Fund is as follows:

	01.08.2023 to 31.07.2024	20.12.2022 (date of launch) to 31.07.2023
	RM	RM
Profit/(loss) before taxation	12,381	(11)
Taxation at Malaysian statutory rate of 24% (2023: 24%)	2,971	(3)
Tax effects of:		
Investment income not subject to tax	(3,072)	(7)
Expenses not deductible for tax purposes	35	8
Restriction on tax deductible expenses for PRS Fund	66	2
Taxation	-	-

9. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS ("FVTPL")

	2024 RM	2023 RM
Financial assets at FVTPL:		
Unquoted collective investment scheme	172,202	13,467

	01.08.2023 to 31.07.2024	20.12.2022 (date of launch) to 31.07.2023
	RM	RM
Net gain/(loss) on financial assets at FVTPL:		
Realised gain on disposals	-	10
Changes in unrealised fair values	7,161	(452)
Management fee rebate (Note 4)	1,164	77
	8,325	(365)

Financial assets at FVTPL as at 31 July 2024 are as detailed below:

	Quantity Units	Aggregate cost RM	Fair value RM	Percentage of net asset value %
UNQUOTED COLLECTIVE INVESTMENT SCHEME				
Hong Leong Balanced Fund	371,926	165,493	172,202	88.39
TOTAL UNQUOTED COLLECTIVE INVESTMENT SCHEME	371,926	165,493	172,202	88.39
UNREALISED GAIN ON FINANCIAL ASSETS AT FVTPL		6,709		
TOTAL FAIR VALUE OF FINANCIAL ASSETS AT FVTPL		172,202		

Financial assets at FVTPL as at 31 July 2023 are as detailed below:

	Quantity Units	Aggregate cost RM	Fair value RM	Percentage of net asset value %
UNQUOTED COLLECTIVE INVESTMENT SCHEME				
Hong Leong Balanced Fund	29,630	13,919	13,467	89.25
TOTAL UNQUOTED COLLECTIVE INVESTMENT SCHEME	29,630	13,919	13,467	89.25
UNREALISED LOSS ON FINANCIAL ASSETS AT FVTPL			(452)	
TOTAL FAIR VALUE OF FINANCIAL ASSETS AT FVTPL			13,467	

10. UNITS IN CIRCULATION

	01.08.2023 to 31.07.2024 No. of units	20.12.2022 (date of launch) to 31.07.2023 No. of units
At the beginning of the financial year/period	30,253	-
Add: Creation of units during the financial year/period		
- Arising from applications	337,979	30,253
At the end of the financial year/period	368,232	30,253

11. TOTAL EXPENSE RATIO ("TER")

	01.08.2023 to 31.07.2024 %	20.12.2022 (date of launch) to 31.07.2023 %
TER	1.37	1.60

Total expense ratio includes management fee (excluding management fee rebate), Scheme Trustee's fee, PPA administration fee and other expenses for the financial year/period divided by the Fund's average net asset value calculated on a daily basis and is calculated as follows:

$$TER = \frac{(A+B+C+D)}{E} \times 100$$

Where;

- A = Management fee (excluding management fee rebate)
- B = Scheme Trustee's fee
- C = PPA administration fee
- D = Other expenses
- E = Average net asset value of the Fund calculated on a daily basis

The average net asset value of the Fund for the financial year/period calculated on a daily basis is RM115,532 (20.12.2022 (date of launch) to 31.07.2023: RM11,968).

12. PORTFOLIO TURNOVER RATIO ("PTR")

	2024 Times	2023 Times
PTR	0.63	0.61

PTR is derived from the following calculation:

(Total acquisitions for the financial year/period + total disposals for the financial year/period) / 2

Average net asset value of the Fund for the financial year/period calculated on a daily basis

Where;

total acquisitions for the financial year/period
= RM146,610 (20.12.2022 (date of launch) to 31.07.2023: RM14,072)

total disposals for the financial year/period
= Nil (20.12.2022 (date of launch) to 31.07.2023: RM609)

13. UNITS HELD BY THE PRS PROVIDER AND RELATED PARTIES TRANSACTIONS AND BALANCES

The related parties and their relationships with the Fund are as follows:

<u>Related parties</u>	<u>Relationships</u>
Hong Leong Asset Management Bhd	The PRS Provider
Hong Leong Islamic Asset Management Sdn Bhd	Subsidiary of the PRS Provider
Hong Leong Capital Berhad	Holding company of the PRS Provider
Hong Leong Financial Group Berhad ("HLFG")	Ultimate holding company of the PRS Provider
Subsidiaries and associates of HLFG as disclosed in its financial statements	Subsidiaries and associate companies of the ultimate holding company of the PRS Provider

No units were held by the PRS Provider and parties related to the PRS Provider as at 31 July 2024 and 31 July 2023.

In addition to related party disclosures mentioned elsewhere in the financial statements, set out below are other related party transactions and balances. The PRS Provider is of the opinion that all transactions with the related companies have been entered into at agreed terms between the related parties.

	2024	2023
	RM	RM
<u>Related party balances</u>		
Cash at bank:		
- Hong Leong Bank Berhad	22,682	1,625

	01.08.2023	20.12.2022
	to 31.07.2024	(date of launch)
	RM	to 31.07.2023
	RM	RM
<u>Related party transactions</u>		
Interest income from auto-sweep facility bank account:		
- Hong Leong Bank Berhad	677	16
Dividend income from unquoted collective investment scheme managed by the PRS Provider		
	4,964	456
Purchase of unquoted collective investment scheme:		
- Hong Leong Asset Management Bhd	146,610	14,072
Disposal of unquoted collective investment scheme:		
- Hong Leong Asset Management Bhd	-	619

14. TRANSACTIONS WITH BROKERS/DEALERS

For the financial year ended 31 July 2024 and financial period from 20 December 2022 (date of launch) to 31 July 2023, there are no transactions with brokers/dealers.

15. COMPARATIVES

The financial statements for the current year is prepared for the financial year from 1 August 2023 to 31 July 2024 whilst for the comparable period, it is prepared for the financial period from 20 December 2022 (date of launch) to 31 July 2023.

Therefore, the comparatives for the statement of comprehensive income, statement of changes in equity, the statement of cash flows and related notes are not comparable to the financial period from 1 August 2023 to 31 July 2024.

Performance Data

for the Financial Year/Period Ended 31 July

		Financial Year 2024 %	Financial Period 2023 [^] %
A. (i) Portfolio Compositions:

B. Average Total Return, NAV Per Unit-to-NAV Per Unit basis			
(as at 31/07/2024)*			
(i) One year		6.05%	

* Source: Lipper for Investment Management
(Returns are calculated after adjusting for distributions and/or additional units, if any)

[^] The figure shown is for the period since Fund launch (20 December 2022 to 31 July 2023).

The TER was 0.23 percentage point lower as compared to 1.60% for the financial year ended 31 July 2024 mainly due to higher average net asset value of the Fund.

The PTR increased by 0.02 times (3.28%) to 0.63 times for the financial year ended 31 July 2024 versus 0.61 times for the financial period ended 31 July 2023 mainly due to higher level of rebalancing activities undertaken by the Fund.
